Academic Project Details

- **Project:** The Automatic Pill Dispenser to Remind Medication with Alarm and Mobile Notification.

Most patients have diseases which need to take medications over a long period of time in order to stabilize their conditions. Ensuring that the patients consume the right medication at the appropriate time becomes crucial.

The proposed system overcomes this problem.

Duration: 9 months.

Role: Requirement Gathering, Planning, Designing, Paper Publication.

- **Project:** Time table scheduler.

Most colleges have a number of different courses and each course has a number of subjects. Now there are limited faculties, each faculty teaching more than one subjects. So now the time table needed to schedule the faculty at provided time slots in such a way that their timings do not overlap and the time table schedule make best use of all faculty subjects demand.

Duration: 2 months.

Role: Designing, Documentation.

- **Project:** C Tutor.

C Tutor is a web based coaching program. It is ideal for students to upgrade their instruction on the web. Web based learning is a simple approach to show students and to give them a chance to have a fabulous time while learning.

Duration: 6 months.

Role: Planning, Designing, Documentation.
