SOUMYA SATISH JENA

(Android Developer)

Phone: +91-7504555344 / 8280966788
Mail: jenasoumyasatish@gmail.com

CORE COMPETENCIES

- Android / Mobile Application Development
- Code Reusability / OOPS
- Application Performance
- Improvement / Enhancement
- Code Review & Integration
- Design Pattern
- Root Cause Analysis & Bug Fixing
- Integrating 3rd Party Libraries
- Agile Methodology
- Continuous Integration & Continuous Deployment
- UI & UX
- Play Store Release/ Publishing

SCHOLASTICS

- B. Tech specialized in Electrical, Communication & Electronics - Institute of Technical Education & Research, Bhubaneswar – 2015

IT PROFICIENCY

LANGUAGES
- Java, Kotlin

TOOLS
- Android Studio/ SDK, IntelliJ IDE, Postman, Rally, Sonar Clouds, Git, Circle CI, Figma, Conflunce

DATABASE
- Room, SQLite, Shared Preference, Data Store.

DESIGN PATTERN
- MVC, MVP, MVVM.

PAYMENT GATEWAY
- Razor Pay, Google Pay.

WEB SERVICE
- REST API, JSON.

DEBUGGING
- Android Profiler, Break-point, Log-Cat, Firebase Crashlytics, Blue Triangle

PROFILE SUMMARY

- Android Application Development Professional with 3.11 years of experience in Java, Kotlin, OOPS & Collections Framework along with strong debugging, analysis, problem-solving skills.
- Proficient in UI/UX & Material Design for building responsive design to deal with different screen sizes, worked on Dialog & Custom dialog, Custom Layout, Permissions.
- Experienced in working on **Healthcare** platform and having domain knowledge.
- Skilled in integrating 3rd Party libraries, REST API / HTTP Request and handling offline storage.
- Experience in implementing of design pattern i.e. MVP, MVVM, using Android Components and **Jetpack** components like Databinding, View Binding, Live data, View Model, Navigation, and Work Manager.
- Experienced in writing Unit Test cases, Integration of social media platform, payment gateways, Firebase for Push Notification & Crashlytics. Worked on Gridle.
- Experience working on Agile Methodology, and have knowledge on CI/CD pipeline.
- **Libraries Used: -** Retrofit, OkHttp, LoopJ, Glide, Room, Butter Knife, Room, Rx Java, Dagger, Jetpack, Image Croper, Budiyev Scanner Library, QRGenearator, Zxing, Firebase, Mockito, Google API, Facebook API, Jetpack, Blue Triangle, Razor Pay, Google Pay.

EXPERIENCE

Dec'20 – Till Date
DESIGNATION

Emids Technologies | Bangalore, Karnataka
Software Engineer – Android Developer

- Develop and test software to meet consumers' and clients' needs.
- Recommended and develop upgrades for existing applications.
- Worked on developing the module from scratch to a product level.
- Identify and correct bottlenecks and help in maintaining code quality.
- Monitor quality and performance of applications implement new technologies to maximize scalability, and performance efficiency.
- Individual handled the critical YHG module and had taken a lead in delivering the module. Worked on Bug fixing, A11Y issues.
- Collaborate closely with other team members mentoring them and help them to build new features and implementing it.
- Document all work for future reference in the confluence page.

Jul'18 – Dec'20
DESIGNATION

HMW Communications | Bangalore, Karnataka
Mobile Application Development – Android Developer

- Test, maintain and recommend code improvements to ensure strong functionality and optimization.
- Work with experienced team members to conduct root cause analysis of issues, review new and existing code and/or perform unit testing.
- Analyse user requirements & convert requirements to design document.
- Identify ideas to improve system performance and impact availability
- Worked on creating UI & UX design wireframe, payment gateway integration & wallet, custom library. Built the product from scratch.
- Lead 3 member team and coordinated them in achieving their goals.

Nov'17 – May'18
DESIGNATION

Palle Technologies | Bangalore, Karnataka
Software Trainee Engineer – Android Application Development

- Worked in-house projects along with other developers to design the flowchart and algorithm.
- Integrate software components and third-party programs.
- Troubleshoot, debug and upgrade the existing software.
- Produce clean, efficient code based on the specification.

Emids Technologies

Project -1
- **Active Health**

Client
- Aetna – CVS Health

Duration
- Jan 2021 – Till Date

Team Size
- 4

HMW Communications

Project -1
- **Society Management App**

Duration
- May 2019 – Nov 2020

Team Size
- 2

Project -2
- **Classers – Finding Tutor, Institute & Jobs**

Duration
- July 2018 – Feb 2019

Team Size
- 2

Project -3
- **Cashback Candy – India Cashback, offers, referrals**

Client
- Techrathon Technologies

Duration
- July 2018 – Oct 2018

Team Size
- 2

Date & Place

- June 13th 2022
- Bangalore

PROJECT SUMMARY

Link: https://play.google.com/store/apps/details?id=com.aetna.ahealth

Description:
- Fitness app to track daily activities of user and provide coaching, challenges, health assessment for achieving daily and weekly health goal and motive them by providing incentives.

Keys Responsibility Area:
- Worked on feature enhancement, developing new feature from the scratch, implementing custom library, integration of Blue Triangle & SSO, writing the unit test cases.
- Responsible for handling predominant module i.e. YHG, coaching, rewards.
- Responsible for fixing L3, productions, A11Y defects and providing RCA.

Description:
- Society app for monitoring the end-to-end flow, handling data of admin, co-admins, users & people associated with the society for serving various purposes.

Keys Responsibility Area:
- Responsible for building entire app from scratch to end flow as per given requirement.
- Designing the UI, custom and bottom sheet dialog, handling Rest API, offline storage.
- Integration of 3rd party library, Payment Gateways and Firebase for Google Analytics, Crashlytics, Push Notification.

Link: https://play.google.com/store/apps/details?id=com.hmw.classers

Description:
- Helps in finding the Teacher, Institute & student in your locality & nearby, where you can search institute, teacher, courses, and teaching jobs/tuitions.

Keys Responsibility Area:
- Responsible for handling end to end flow for search, post, profile, referral modules.
- Integration of 3rd party library, Payment Gateway, geo coding, custom dialog, handling offline storage.

Link: https://play.google.com/store/apps/details?id=com.cashback_candy

Description:
- This app provide great deals, cashback offers on the online stores and offers lifetime free cash from referrals.

Keys Responsibility Area:
- Responsible for designing the UI & UX for the cashback, user profile and online stores modules.
- Integration of Facebook and Google APIs for authentication, Firebase for Push Notification and crashlytics.
- Responsible for handling 3rd party libraries, Rest APIs, offline storage.
- Responsible for fixing production defects, enhancement of online stores and publishing in play store.

DECLARATION

- I hereby declare that information mentioned above is correct to my knowledge and I bear the responsibility for the particulars.
