Energetic and high performing professional with **6 years of strong experience** in web design and software development in various technologies.

Expertise in working under a challenging and high demanding work environment with multiple projects.

Proven ability in interpreting and implementing complex business requirements. Excellent communicator with innovative problem-solving skills.

Technical Expertise

- **Languages** - Microsoft .Net 4.5, C#, ASP.Net, WebApi, Angular
- **Scripting Languages** - HTML, CSS
- **Source controls** - GitHub, Jira, TFS
- **Web Servers** - IIS 6.0, IIS 7.0, IIS 8.0
- **IDE (Integrated Development Environments)** - Microsoft Visual Studio .NET 2015, Microsoft Visual Studio .NET 2017
- **Tools** - SSIS, UDeploy
- **OS Platforms** - Windows
- Good Knowledge on **application deployment using CI/CD**
- Good Knowledge on **agile methodology, Sprints and Scrums**

Experience

Infosys, Pune - Jan 2018 - Present (Technology Analyst)

Infosys Limited is an Indian multinational information technology company that provides business consulting, information technology and outsourcing services.

Projects

1. Trust SEI Wealth Platform (Trust SWP)

June 2018 - April 2019 (Developer)

This project involves development activities around the migration of existing data source – Trust Data Warehouse (TDW) to SWP system for Trust applications namely, Trust Asset Regulatory Reporting Repository (TASRRR) and Fiduciary Compliance Monitoring (FCM). It is focused on Functional integration of SWP into the existing application and bridging the conversion until the last account is moved into SWP. Development follows agile

methodology.

Role and responsibilities:

- Was part of a team of seven members.
- Designed, developed and tested web screens and database objects as per functional requirements. This was done in .NET using Microsoft Visual Studio 2015 and in MS SQL Server using MS SQL Server Management Studio.
- Performed performance optimizations on SQL Queries/Operations.
- Developed and Enhanced packages built in SSIS Technology.
- Involved in Unit Testing and Integration Testing
- Performed Error Fixing.

2. DOCBROKER Application

May 2019 - Present (Developer)

This project involves development activities for generating reports as per the User requirement and users should be able to download the reports based on account type. Development follows the agile methodology.

Role and responsibilities:

- Part of a team of five members.
- Technologies used are .NET using Microsoft Visual Studio 2015 and Oracle 11g.
- Performed SQL Queries.
- Worked on Production fixes.
- Key responsible for application deployment using CI/CD.

Extra-Curricular Activities

- Participated in 'Logica' event related to C programming at Sinhgad College.
- Volunteered for the technical event 'Techtonic 2k16' at SITS.
- Participated in a 'Cyber Security' workshop by Microsoft.

Core Competencies or Skill Sets

- Management Skills
- Enthusiastic to learn

- Ability to work in a team and motivate others
- Focused
- Organized

Education

B.E. (Information Technology)
