HTML, CSS, Javascript ,Github

## PROJECTS

### IVY BAT Petra

- Was part of the Contract Management Team. Involved in defects fixing and test classes related to the contract life cycle, enhancement of UI and backend for a module leveraging Lightning Aura and Apex.

### Verizon

- Worked on Sales cloud. Involved in defects fixing and test classes related to the Sales life cycle, developed an Address Validator UI and backend leveraging existing API called Cameo . Worked with external data and objects. Worked on some CPQ related stories related to subscription.

### Ellie Mae

- Non Development Project. It was a functional project. US Loan and Mortgage related reforms to be incorporated into the system. Dealt with requirement gathering directly from the client and curating stories for the dev team(Non PWC) to work upon. Stories were related to the Sales cloud.

### Global CRM

- Worked on the new Salesforce Surveys feature. Single developer on the team. Developed a system to garner feedback from the end user based on business requirements. Developed the whole system only with configuration (minimal code used - Limitation set by the product owner). Manual as well as automated Feedback gathering system. Incorporated Lightning flows heavily.
- Worked on Approval process and for the Quotes handling different scenarios and sending notification to the involved users.
