## WORK EXPERIENCE

### Software Developer - Cloud MSP

#### Amdocs DVCI

10/2020 - Present

Cloud MSP - AT&T

Pune

##### Achievements/Tasks

- Developed and deployed automations in production using Python, Git, Kubernetes, JESI and other automation tools in SRE mode.
- Automated multiple toils for the account using Python and practicing SRE.
- Involved in all phases of data acquisition, data collection, data cleaning for RFC execution using R.
- Proficiency in writing shell scripts which results on automating various toils.
- Good Experience with a focus on Automations, RPA, Machine Learning and AI on Azure platform.

### Software Engineer - SmartOps AT&T

#### Amdocs DVCI

03/2018 - 09/2020

SmartOps - AT&T

Pune

##### Achievements/Tasks

- Developed multiple Toil Automation as an SRE engineer using Python.
- Extensive experience in analyzing and solving day-to-day Production issues with client facing skills.
- Used data for root cause analysis to infer the warranty issues that are being raised and the reasons for their occurrence.
- Developed RPA automation on Ayehu eyeShare and UiPath.
- Supported online backend application critical to operations at Amdocs using Unix ,Python Scripts and VMWARE machines.
- Lead business critical AT&T deployments with Infra, DBA and application team with direct communication with client.

## EDUCATION

### Post Graduation in Data Science(PGDDS)

#### Symbiosis Distance Learning

06/2020 - Present

### BE (Computer Science & Engineering)

#### Swami Vivekanand College Of Engineering,Indore

06/2014 - 05/2018

6.8 CGPA

## SKILLS

Python

Java

R

Azure

Android

MySQL

SRE

Text Mining

JIRA

Git

Statistics

ML/AI

Data modelling

NLP

Tensorflow

Scikit

Pandas

Pytorch

Postman

Tableau

MongoDB

RPA

UiPath

Unix

Firebase

Postman

eyeShare

## PERSONAL PROJECTS

### InOffice Pay (08/2020 - 12/2020)

- Developed an end to end ReactNative Application with core technology team.
- Involved machine learning algorithms to monitor users interests.
- Developed APIs using Node JS ExpressJS and MongoDB.
- Handling JavaScript technology architecture for backend and mobile platform.

### Digi Kurawar (06/2020 - 08/2020)

- Developed an end to end location based social Android app.
- Used firebase for Database, Storage, Authentication and Authorization.
- Managed data to show relevant local ads to dedicated users.

### Covid -19 Exploratory Data Analysis (04/2020 - 04/2020)

- Developed SIR model using python and R language.
- Data Visualization was implemented using python libraries.

### IMDB Reviews Text Mining/Twitter Tweets Analysis (01/2020 - 02/2020)

### JourneyMate (01/2018 - 04/2018)

## CERTIFICATIONS

AI-900: Microsoft Azure AI

AZ-900: Microsoft Azure

Python Certified: Amdocs

Java Advance Certified : Amdocs

SQL Certified: Amdocs

ACEH: Appin Tech Lab

## LANGUAGES

Hindi

Native or Bilingual Proficiency

English

Full Professional Proficiency

Spanish

Limited Working Proficiency

Marathi

Elementary Proficiency

## INTERESTS

Astronomy

Automation
