- Completed MATRICULATION from BSP Senior Secondary School No.2 Sector-6 BHILAI in the year 2009.

PROJECT DETAILS:

AXEL (StoAmigo International LLC):

Project	Axel Network (Block chain technology)
Duration	Jan 2019 to Till Now (under development)
Role	Quality Assurance
Device	Web, Android, IOS ,Desktop Application
Team size	15

Description: This project is based on block chain technology which uses **distributed, decentralized and secured by master nodes**. The AXEL.Network is fusing together distributed technology with Master nodes to secure decentralized transactions in a process we call SOAP. Data transactions on our network are Secured, Organized, Authenticated, and Protected (SOAP) via a Proof-of-Stake Block chain.

This product provide a below facility to user.

- **AXEL- IPFS pinning facility:** The facility provides an-easy-to use interface to upload and manage content such as tech, images, music, and videos to the distributed Interplanetary File System (IPFS).
- **AXEL Web Wallet:** The web wallet provides a complete digital wallet for the AXEL Utility Token. Securely send, receive, and track AXEL Tokens from the convenience of a simple web interface.
- **AXEL Desktop Wallet:** Secure, send, and manage AXEL Tokens with the desktop wallet.

Project	Cloud Storage Application
Duration	May 2018 to Till Now (In production)
Role	Quality Assurance
Device	Web, Android, Desktop Application
Team size	10

Description: AXEL-share and Transfer (Cloud Locker) is a unique software application that turns your computing device into a fully functional mini-server. AXEL works in conjunction with the Axel ecosystem to enable you to store, share and stream your Axel content to any of your portable devices, anywhere in the world. Axel gives you the power to share with friends and family while never uploading your content to a public cloud server. All your important files remain on your Axel and in your complete control.

WEB link: - <https://www.axel.org/download>

IOS link: - <https://itunes.apple.com/us/app/stoamigo/id708142788>

Android link: - <https://play.google.com/store/apps/details?id=com.stoamigo.storage>

Responsibilities:

- Involved in thorough system study using Requirement Specification Document.
- Identified E2E scenarios, Written Test Cases for different functionalities.
