

Kamalkant Gaur

Software Engineer

8+ years experience as a Software Developer who enjoys the challenges of working with cutting edge platforms such as Salesforce Interaction Studio, Salesforce LWC, Salesforce Experience Cloud, Reactjs, React Native, Nodejs, Android. My expertise includes custom web application development using react js(Redux, GraphQL, Nodejs), Heroku connect, Heroku pipeline, Mobile application development using react native and android. I have good organisational skills and can easily "switch gears" between platforms, languages, and development environments. I'm a well rounded generalist who can bring immediate value to an organisation while quickly learning the particular technology and application domain at hand.
