- Learned Full Stack development 13 week immersive program
- Started professional portfolio

SKILLS

Javascript | React | Node.js | Sass | HTML | CSS | PostgreSQL | Redux | VBA | C++ | git | Postman | Express.js | Massive | React Router | Express-Session | Charts.js | Heroku | SAP | Microsoft NAV | Excel | Tableau

EXPERIENCE

Devmountain

Lehi, UT

Student Web Developer

08/2020 - 11/2020

HighRecruits -Github Repo | Hosted Port

- Created web application to link highschool volleyball players and college recruiters
- Used Express-Session, Bcrypt, and React-Redux to allow for different types of accounts for recruiters and players
- Recruiters can view all players with and account and send contact info through email or text
- Players can input stats for a game, see how many times profile has been viewed, and take live stats during game for the whole team
- Implements Charts.js to allow players to view average stats vs other players with an account

Tech used- React | Node.js | Sass | HTML | CSS | PostgreSQL | Redux | Bcrypt | nodemailer | Chartjs | Twilio
Express-Session

HiddenGems -Github Repo | Hosted Link

- Worked remotely with group to create web application where users share less known attractions to their areas
- Using React-Google-Maps users can add locations with pictures, descriptions, and longitude/latitude
- Users can favorite locations to their profiles and plan to visit at a later date
- Using react-star-ratings users can leave comments and ratings on locations

Tech used- React | React-Google-Maps | Node.js | Bootstrap | HTML | CSS | PostgreSQL | Redux | Bcrypt |
React-star-ratings | Express-Session

MityInc (Furniture Manufacturing, 250 employees)

Orem, UT
