PROJECTS

Driver Analysis

Built a tool to predict important business drivers which helps in improving Customer Experience.

Paperless Adoption

This adoption was taken place across enterprise to reduce cost of paper, printing and postage by replacing them with digital enablement and e-Delivery option.

Effective Sales Dashboard

The goal was to understand how different level of granularity are effective at driving sales. Using this report, United HealthCare teams were able to understand how various sales are impacted by different categories over time.

NPS Playbook Dashboard

This dashboard provide near real-time access to the various strategies, performance, programs and actions their business to execute on Net Promoter score improvement. Each section of the dashboard highlights the key deliverables being discussed monthly with the VOC council.

Best-in-Class Survey

Developed and Analyzed the survey to find out improvement areas in the already on-going projects to make it Best-in-Class with the help of Engagement Maturity Questions from Delivery team including Process, Quality and Automation.
