Project Details:

Title : Deloitte USI Life Science Project (Client)

Description : During this time I have worked on 5 life science projects developed on salesforce. Worked with **apex, visual force, apttus, lightning** development and **reporting** on salesforce. Also worked on a project since Jan'19, where the whole development was on **Lightning Web Components**. Diligently performed **data loads** in sandboxes as well as in production. Supported 8 applications at a time by solving critical **bugs** and dealing with on demand **enhancements**. Dealt with successful **client interactions** in order to provide solution to business.

Duration : Aug'17 – Dec'18

Role : Salesforce Developer

Team Size : 18-20

Title : Deloitte USI Life Science Project (Product)

Description : During this time I have worked on building multiple **products** on Salesforce which will act as **asset** for the company which can **generate revenue**. I was completely involved in **developing** the asset and partially in **designing** the architecture. Being a product, the approach was to make it completely **configurable** while adhering to the **best practices**. Developed on top of health cloud and patient cloud managed package on **lightning web components**. Also been part of the packaging of one of the assets.

Duration : Jan'19 – Till Date

Role : Salesforce Developer

Team Size : 10-15

Field of Interests:

- Programming.
- Designing.

Achievements, Co-Curricular Activities, Extra- Curricular Activities:
