HARSHIT KUMAR

Contact Information:
- **Phone:** +91 9758362401
- **Email:** harshitporwal7@gmail.com
- **LinkedIn:** *https://www.linkedin.com/in/harshitporwal7/*
- **Address:** Basrehar, Etawah, Uttar Pradesh - 206253

Objective:
RPA Developer with excellent statistical and analytical skills, experienced in UiPath, Automation Anywhere, and Power Automate. Dedicated to leveraging skills for personal and company growth, focusing on organizational goals and establishing a level of professional excellence.

Professional Summary:
- **Experience:** 3+ years in Robotic Process Automation implementation using UiPath, Power Automate, and Automation Anywhere.
- **Implemented**: End-to-End RPA for various sectors.
- **Expertise:** RPA processes, including requirements gathering, solution designing, coding, testing, debugging, documentation, and implementation.
- **Hands-on experience:** Software delivery lifecycle, process mapping, business requirement analysis, and development of best practices.
- **Skills:** Screen, Data & Web scraping, and storing client data into data tables.
- **Collaboration:** Worked closely with business analysts and solution architects for Process Design Document (PDD) and Solution Design Document (SDD).
- **Automation:** Excel, SAP, PDFs, Web portals, and Email automation.
- **Specialization:** Queue Configurations, Monitoring, Exception handling, and environmental variables using RPA tools.
- **Teamwork:** Collaborative team player with excellent interpersonal and communication skills.

Clients and Roles:
- Currently leading Finance, Procurement, and Payroll teams for **CFO Project** in UiPath, Power Automate, and Automation Anywhere.

- Worked with **Oil Industry Client** in Automation Anywhere and Power Automate Tools.

- Contributed to Proof of Concepts (**POC for Air Conditioner Indusrty** using UiPath and Power Automate Tools, **POC for Soft Drink Industry** using UiPath and Automation Anywhere Tools).

Technical Skill Set:

- **RPA Tool:** UiPath, Power Automate, Automation Anywhere, Kore AI.
- **Programming Languages:** C, Java, SQL, Python, C++, VB Script, .Net, Html, Css, JavaScript.
- **Tools:** MySql, MS Office, Visual Studio, Power BI, Operating System, Oracle DB.

Experience:

Company Name	Designation	Duration
HCL Technologies	Software Engineer	Jan 2021 to Till Date

Professional Projects:

Softix Process (UiPath)

- Developed a solution for creating separate files for different regions based on specified row counts, uploads the files, and fills in the details on the Softix portal.

Microsoft Portal (UiPath)

- Managed client emails, downloaded attachments, and verified invoices on the Microsoft Portal, and sent the final report to the business.

P & G Invoice Submission (UiPath)

- Received input files from SharePoint, logged into the P&G portal, filled invoice details, attached the PO number PDF for each invoice, took screenshots, and uploaded the final report and screenshots folder on the sharepoint.

Coupa Portal (UiPath)

- Read client emails, logged into Coupa portal, performed tasks related to purchase orders and updated the records in the database.

Tax Worksheet Posting (Power Automate)

- Automated tax worksheet posting using Power Automate, extracting data from Oracle MI, performing data manipulation, and uploading the file to the TWS portal.

Epicor Application (Automation Anywhere)

- Downloaded input files from SharePoint, logged into EPICOR portal, selected the warehouse, filled the counted quantity, sent the full report to the business, and checked variance %. If variance > 5%, created a file and sent the variance report.

Role and Responsibilities:

- Gathered process information and understood manual processes from the business team.
- Checked the feasibility of processes.
- Designed UiPath and Power Automate process solutions following standard design principles.
- Utilized Windows Credential Manager and orchestrator assets to get credentials.
- Effectively handled exceptions using Try Catch Activity.
- Conducted UAT testing and managed all types of exceptions.
- Developed and tested various modules, appreciated by the client.
- Created Process SDD and PDD files.
- Used AI center and AI fabric.
- Used Azure Key Vault to store assets.
- Utilized cloud flow to schedule the bot and integrated desktop flow, key vault, and SharePoint purposes.
- Conducted Process Walk Through, Feasibility check, PDD review, Development, Client interaction, Code Review, Testing, UAT, and Process Deployment.

Academic Credentials:

Course	Board/University	Year of Passing	Percentage/CGPA
B.Tech (Computer Science)	Dr. A. P. J. Abdul Kalam Technical University, Lucknow	2020	7.41 CGPA
Intermediate	U.P. Board, Allahabad	2016	83.8%
10th	U.P. Board, Allahabad	2013	80.34%

Certification:

- **UiPath:**
- RPA Developer Advanced, RPA Developer Foundation, Orchestrator for RPA Developer, Email, PDF, Data Table & Excel Automation in Studio.
- **Power Automate:**
- Power Platform Foundation - PL 900, Power Automate RPA Developer Associate - PL 500.

- **Automation Anywhere:**
  - Advanced RPA Professional - Automation 360.
- **Kore AI:**
  - Kore AI Platform Basic Developer Training.

Achievements:

- Gold Medal in Programming in Java.
- 3rd Position in the Programming Competition.
- 3rd Position in Code Squad, a National Level Coding Competition.

Workshops:

- Cyber Security Awareness Program, Ghaziabad.
- Machine Learning, Data Science With PYTHON.

Personal Details:

- **Father's Name:** Sudhir Kumar
- **Date of Birth:** 21/10/1998
- **Gender:** Male
- **Languages Known:** English & Hindi

Declaration:

I hereby declare that the information furnished above is true to the best of my knowledge.

Place: Noida
