# BANDI KARUNAKAR

Email: Bandi.karunakar@outlook.com
Mobile No: +91 9071751756

PROFESSIONAL SUMMARY:

- Having 4.7 years of experience in IT Industry with 3.5 years of Experience in Dell Boomi Integration.
- Dell Boomi Certified Professional Developer.
- Worked on Dell Boomi Integration Processes, Web services, Connectors, Mappings, Functions, Error Messaging and Monitored & maintained Integration Processes with Dashboards &managed Processes using Process Reporting & Process Log.
- Proficient in developing integration process flow in Dell Boomi.
- Enterprise on Dell Boomi Connectors called SAP, Netsuite, Atom Queue, JMS, Disk, FTP, Mail, Sales Force, Database, Web Services SOAP, REST Clients, HTTP client.
- Worked on Different Data Formats like Database, XML, JSON, Flat File.
- Strong Experience in integrating multiple SaaS Platforms like Sales force, Database, SAP, etc.
- Profound Knowledge in building different Mapping Functions using Standard Functions and Custom Functions using JavaScript and Groovy Script.
- Experience in Full Life Cycle Implementations i.e., Requirements Gathering, Analysis, Design, Documentation, Development, Implementation, Testing, Deploying and Supporting Solutions.
- Experience with Databases such as Oracle, SQL Server and writing the SQL Queries.
- Involved in preparation of LLD's, unit test cases for Boomi Process.
- Able to write custom script using Java/Groovy Script.
- Successfully completed Full life cycle implementation and integration on HL7 using Dell Boomi.
- Enterprise in Liaising Business and Technical areas to achieve on-time, on-budget and on-spec Project Completions.
- Ability to work optimally under scheduled deadlines and have passion for delivering high quality output.
- Having Good Knowledge on Private& Public – IPaas, SaaS, PaaS, IaaS cloud Technologies.
- Work individually and Having good communication and Team building skills.

EDUCATION QUALIFICATION

- Completed my B.Tech in ECE from JBIET, HYD in 2016 with 67.6%.
- Completed my Diploma in ECE from Govt. Polytechnic, Anantapur in 2012 with 85.5%.
- Completed my 10th from St. Ann's EM High School, Anantapur in 2009 with 87.3%.

WORKING EXPERIENCE:

- Worked as Software Developer in **Centurion software Solutions**, Bangalore from Feb 2018 to Apr 2019
- Currently working as Integration Developer in **MINDTREE**, Bangalore from Apr 2019 to till date.

TECHNICAL SKILLS:

Technologies	:	Dell Boomi, SAP PI/PO ,Mule Soft ESB, Any point, API Manager,
Integration Tools	:	SoapUI, Postman, Kyle, Jira
Boomi Connectors	:	Success Factors, Database, Workday, Salesforce CRM, Web Service, Mail, FTP, SFTP, HTTP
Database	:	MySQL, Oracle 10g.
Operating Systems	:	WINDOWS XP, Linux

- Certified in DellBoomi Professional Integration Developer.
- Certified in DellBoomi Associate Developer.
- Certified in DellBoomi API Management.

PROJECT 1:

Title   : Pickles
Client   : Pickles Australia
Role   : Dell Boomi Developer
Duration   : 1 Years
Location   : Off shore
Team Members : 6

Project Overview:

      Pickles is Australia's leading vehicle, industrial and salvage asset remarketing company including Government, Fleet, Repossessed, Manufacturer, Light Commercial & 4WD, Prestige, Luxury, Classic & Exotic vehicles. Pickles Salvage offers arrange of damaged items, including cars, motorcycles, trucks, earth moving and mobile plant, boats, trailers and caravans, on behalf of major corporations catering to private buyers and trade customers..

Roles and Responsibilities:

- Hands-on design, development, deployment and management of multiple integration processes created on Dell Boomi.
- Execution of process from process properties, scheduling of process
- Enable communication with application and data sources using connectors
- Designed and Configured Extensions for Connector components.
- Used Document cache, Map components, Process properties and Dynamic Process properties.
- Developed the Database/JSON/XML profiles, Boomi Mappings, Processes using with different connectors/shapes and logic shapes between the application profiles and different Trading partners using Dell Boomi.
- Involved with Client for Functional Specifications and Prepared technical specification docs for interfaces.

Connectors Used:

- Salesforce, Database, Atom Queues, Mail, HTTP Client, FTP, Disk.

PROJECT 2:

Title   : Johnson & Johnson
Client   : Johnson & Johnson, US
Role   : Integration Developer
Duration   : 1.5 Years
Location   : Off shore
Team Members : 7

Project Overview:

Johnson & Johnson (J&J) is an American multinational corporation that develops medical devices, pharmaceuticals, and consumer packaged goods. They supply multiple medicines from their pharmacy, so they want to order flow the prices, crm, and Invoice in their application. They have a requirement to maintaina database of all the records that are out bounded with multiple segments.

Roles and Responsibilities

- Participate dingo-live, migration and post-production deployment support.
- Defined and Configured Extensions for Connector components.
- Worked by using SOAP UI as a primary testing tool. Created test cases and test suite on SOAP UI. Configured environments in Atom sphere and configured Atom cloud & Atom/Molecule local to each environment.
- Participated in requirements gathering, integration Design, Development, Configuration, Administration , and Documentation.
- Provided UAT and E2E testing support.
- Gathered and documents integrations requirements by interacting with the source and target (Vendors & Stake holders).
- Participated in gathering & documenting mapping requirements, creating technical specification mapping documents.

Connectors Used:

- Soap UI, FTP, Disk ,Salesforce, Database, Atom Queues, Mail, HTTP Client.

PROJECT 3:

Title   : Taylor Made
Client   : Taylor Made, US
Role   : Integration Developer
Duration   : 1 Years
Location   : Off shore
Team Members : 6

Project Overview:

Migration of Existing Mule ESB services\IIB9 Flows into Dell Boomi and Developed the new services in Dell Boomi. Taylor Made project include testing of all backend system during the migration phase which include function testing of Mule ESB\IIB9 and Boomi Services. As a part of migration minimized the use of Groovy and preferred the Boomi shapes to perform the same functionality.

Roles & Responsibility:

- Created DFD (Data Flow Diagram) and Integration Design Document and did the migration.
- Created Core API by using JMS, SAP, Salesforce, DISK, DATABASE, HTTP, Database, WSS Connector.
- Involved in End-to-End testing of peripheral before go live of APIs from integration side.
- Cross trained the new resources on Integration (Boomi / Mule).
- Reviewed the Boomi code as per the existing Mule functionality.

Connectors Used:

- Soap UI, FTP, Disk ,Salesforce, Database, Atom Queues, Mail, HTTP Client.

PERSONALDETAILS

Father's Name   : Mr.B.Venkataramana
Date of Birth   : 05-06-1994
Nationality   : Indian
Gender   : Male

DECLARATION

I hereby declare that all the above-mentioned information is true and correct to the best of my knowledge.
