## **SUMMARY:**

- Associated QA Tester with one and half year experience in software tester with diverse projects, clients and industry.
- Involved in creating test plans for the different aspects of the project according to the business specifications in coordination with the QA Lead and Project Manager
- Developed and maintained quality assurance procedure documentation. Determined root cause of deviations and non-conforming results and implemented appropriate corrective and preventive actions throughout product development process.
- Monitored testing procedures and verified performance of tests according to established item specifications and protocol.
- Conducted data review and followed standard practices to find solutions

## **SKILLS:**

Functional testing, Blackbox testing, integration, smoke testing, Selenium IDE/RC, Node .js, API testing.

## **PROJECT HIGHLIGHTS:**

- **Leadswatch Application (Fission infotech 2021(present))**

Role: QA Tester

Creating system test plans and participating in the definition and execution of manual system test scripts. Documenting expected results. Collaborating with the project team, developing and periodically confirming system test schedule. Executing Systems Integration Test Plan, including the comparison of actual results to expected results.

- **YouTube API (Cognizant 2019-2021)**

Role: QA Testing

Testing the integrated web applications using a YT API Tool, documenting the test plans and reporting to the QA lead, collaborating with the team for more expected results of different testcases.

## **KEY RESPONSIBILITIES HANDLED:**

- Communicated directly with Development, BA teams, and Business stakeholders.
- Extensively used Selenium ide to record, playback and debug individual test cases, used Selenium web driver, provided more flexibility in automating test cases.
- Running tests to search for bugs. Identifying and documenting application defects in a centralized issue tracking system.

- Worked with project managers developing the test strategies and test plans
- Designed and tested the different kind of applications associated with YouTube API
- Documented software defects and performed additional testing to verify all issues were fixed before final delivery.
- Analysed and formatted data elements in excel in conformance with client requirements.

### **TOOLS & OTHER SOFTWARE:**

- YouTube API, Selenium IDE, Postman
- Node.js, GitHub,
- Window 7,8,10

### **EDUCATIONAL OUALIFICATIONS:**

Degree/Certificate	Year	Institute/School, City	%/CGPA
B.Tech. in Electrical and Electronics Engineering	2015-2019	Mallareddy institute of engineering and technology	69.5
12 <sup>th</sup>	2013-2015	Sri Chaitanya	80.3%
10 <sup>th</sup>	2013	St. Anthony high school	8.3

### **ACHIEVEMENTS & CO-CURRICULAR ACTIVITIES:**

- ☐ Received Kudos award for my work and received many valuable appreciations from client.
- ☐ Received multiple awards in various College Fest activities.

### **DECLARATION:**

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.

**Date:**

**Place:** Hyderabad

yours faithfully,
