## INDUSTRIAL PROJECTS

### GE Healthcare (Global SFDC/Apttus & Integration)

#### Description

Working in native salesforce flow and Apttus. This includes the user-stories given by clients, solving the defects at both level as an administration as well as in development. Solving the cases raised by client is also a part of my job which includes total end to end flow of product. This project based on AGILE.

I am currently working as integration developer in current project salesforce is integrated with more than 10 external system and some of them are handled by me. I am having good knowledge of enhancement in integration with Rest and SOAP API. I've worked mostly outbound and inbound rest/Soap call and web services.

I was closely work with support team for initial one month of my project. Where I work with production support cases of SFDC.
