WORK EXPERIENCE:

1. Company : **PersolKelly Services Pte. Ltd. (formerly Kelly Services Pte. Ltd.)**

Client : **MUFG Bank**
Location : Singapore
Position : Software Developer (Lead for India team and Singapore team)
Duration : September 2019 – April 2021

Project #6:

Description:

Proper Loan, Trade Loans are designed to facilitate loans to the customers for helping their businesses handle their international transactions seemlessly. These loans also helps to facilitate customer onboarding and to improve the cash flow within a company by offering required credit without impacting business relationships.

2. Company : **E2 Power Sdn. Bhd. (OCBC Bank IT Subsidiary)**
Department : Systems Delivery
Location : Kuala Lumpur
Position : Systems Analyst (Asst. Vice President 5)
Duration : October 2017 – September 2019

Project #5:

Description:

Auto Loan Secured Loan Application System was developed to create auto loans for Singapore customers which includes credit decision, generation of advice and Loan Shell Creation. It also supports the creation of new CIF records in SIBS upon Loan Approval. It is used to streamline and simplify the processing and documentation so as to improve the turnaround time, increase efficiency and allow scalability.

3. Company : **Pegasystems Worldwide India Pvt. Ltd.**
Location : Hyderabad, India
Department : Global Customer Support
Position : Technical Solutions Engineer
Duration : May 2016 – July 2017

Description:

 I was a member of Global Customer Support Department's NUCLUES team, which supports and helps in resolutions of issues raised through product support forums by the developers of Partners in India region. I was solely responsible for any Pega Rules Engine Ruleset issues, Reporting

functionality issues and upgrade related issues/requirements. Helps Partners to better understand how best they can create their custom application using PEGA.

4. Company   **: Cognizant Technology Solutions Pvt. Ltd.**
Domain   : IPM – Banking and Financial Services
Position   : Programmer Analyst
Duration   : May 2013 – April 2016

Project #4:

Name   : DCV (Document Contract Validation)
Version   : PEGA PRPC 7.1.8
Duration   : January, 2016 to April, 2016
Team Size   : 7
Client   **: DLL Bank**

Description:

DLL Bank needs a process management system with built-in document handling system to digitize and to render more effective time-consuming internal processes. There is an integration of the system for different documents types to corresponding division with the Read Soft System where documents will come in. System will check the Customer Due Diligence for documents which need to be verified by the CDD team. Once the systems are approved by the DLL team using integration then the system will activate the contracts.

Project #3:

Name   : Integrated Disclosures
Version   : PRPC 6.1 SP2
