## TECHNICAL PROJECTS:

### Global Loyalty Deal GLD

**NodeJS, AngularJs, AWS**

Get access to all the great deals from your loyalty cards on Shopping, Dining, Lifestyle, Travel, Wellness and Spa, Entertainment, Hotels, Resorts, and more!

Consider the Global Loyalty Deals as your primary tool for finding the best deals on restaurants, bars, shopping, beauty & spa, hotels, travel, and automotive needs. The app is a great way to save without missing out on the best things that the city could offer. Instantly get access to the best discounts available, have exclusive freebies and enjoy limited offers. We make sure the deals you will find on the app suit your preferences.

### Service Hub CRM

**NodeJS, AngularJS, Elastic Search , AWS**

To provide affordable solutions for service companies of any size that will help accelerate their customer service, improve efficiencies, add to the bottom line, promote and protect their brands and make their brand stand apart from the competition.

### Hood Uber

**NodeJS, React Js, Elastic Search , AWS**

HoodUber is a peer-to-peer social networking software that allows users to build a network amongst friends, family, and peers looking to Travel or freely network within the app amongst peers to find a ride or way around Town.

### Dental Care

**NodeJs, AngularJs, Elastic Search**

Designed & engineered specifically for Dental Practices. Adit is the only software solution that integrates VoIP, Texts, Emails, Patient Forms, Online Scheduling, Analytics, Reviews, Practice Analytics, Payments and more, all in one place!. That is one kind of product , there are different modules over there. This product makes it easy to generate appointments as well as to manage patients.

We have used ELK (Elastic Search , Log Tash, Kibanna) stack for Real time data analysis , full text search , for routing log data and visualizing log data.

## Technical Skills :

**Web - Technology** : Node Js, Angular Js, React Js , JavaScript
