Education

Vinoba Bhave University, Hazaribagh   **Aug. 2016 – Sep 2020**
Bachelor of Technology in Computer Science And Engineering   *Ramgarh, Jharkhand*

Experience

Publicis Sapient   **March 2022 – Current**
Associate Technology L-2   *Gurugram, Haryana*

Plan Builder Tool-Verizon | *Java, Springboot, Javascript , Reactjs, React Native*

- Utilized various performance optimization strategies, including lazy loading, code splitting, and memoization, to enhance application speed and reduce load times.
- Proficiently integrated RESTful APIs or GraphQL endpoints, managing asynchronous data fetching and updates efficiently, contributing to the application's robustness.
- Developed and maintained RESTful APIs using Java Spring Boot, ensuring robust and scalable backend services for the application.
- Contributed on PLAN builder tool for verizon stores which end customer can customize their plans for calling , texting and OTT streaming used in their cell phones.
- Improved Unit Test Code Coverage, Security Hotspot Issue, Code smelling for all application to meet all SONAR quality checks.
- Designed intuitive graphical user interfaces for product description page and prospect flow for VERIZON clients to improve user experience on Verizon stores which increased sales by 20 percent.

AI Book Translation | *Java, Springboot, Javascript , Reactjs , React Native*

- Led a project focused on language translation using AI models. Applied AI model training techniques to enhance translation accuracy and efficiency.
- Developed and maintained RESTful APIs using Java Spring Boot, ensuring robust and scalable backend services for the application.
- Successfully delivered a hybrid application, combining the advantages of native and web development. Worked closely with cross-functional teams, including AI specialists, designers, and backend developers.
- Addressed challenges related to multilingual support, performance optimization, and user experience enhancement. Applied innovative solutions to improve the overall efficiency of the translation process.
- Received high praise from the client for delivering a translation solution that exceeded expectations.

Capgemini Engineering   **January 2021 – March 2022**
Senior Analyst   *Bengaluru, Karnataka*

- Created Rest API using Python ,flask to print real time updates on GRAFANA dashboard which get integrated with react web client.
- Integrated Camunda BPMN with Angular And ReactClient for finding automated flow of each customer who is making order.

Edunomics Tech Solutions   **September 2020 – January 2021**
Android—React Native Developer   *Indore, MP*

- Integrated Google Map SDK with React Native Cross platform application to track and store live location of customer .
- Integrated Third party plugins, packages and REST api's.
- Integrated Payment gateway to accept user payments to finish order flow in .
- Strategically designed architecture and implemented scaling strategies to accommodate future growth, demonstrating a forward-thinking approach to application development.

Relevant Coursework

- Data Structures
- Software Methodology
- Algorithms Analysis
- Database Management
- Artificial Intelligence
- Internet Technology
- Systems Design
- Problem Solving

Freelance Development

Servimate App | *Reactjs, Java, Springboot, Google Maps, Razorpay Paymeny gateway*   **January 2021-August 2021**
- Entire front end using ReactNative , the application use to provide salon services and appliance repair service at home in most of city in north India.
- Designed intuitive graphical user interfaces to improve user experience.
- Created entire cart functionality and integerated razorpay payment gateway
- Application has more than 20,000+ downloads.

Scenario based question on React for Assesment AI platform| *React, React Native, Javascript*   **August 2023**
- Developed 25 original scenario-based questions on React, spanning basic to intermediate levels, to assess candidates' knowledge and problem-solving abilities.
- Demonstrated expertise in React by crafting questions that required a deep understanding of React concepts, ensuring candidates were assessed accurately.
- Ensured the questions were plagiarism-free and not sourced from external websites or materials, maintaining the integrity and authenticity of the assessment.

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL,Typescript,C++
Developer Tools: VS Code, Eclipse, Google Cloud Platform, Android Studio
Technologies/Frameworks: React.js,React Native, Jenkins, GitHub, Jest, GraphQl, Webpack,AWS -EC2, S3, Angular.js,Node.js , Springboot,
Database: MongoDb, Mysql

Certifications

Microsoft Certified: Azure Fundamentals   **Dec 2022 − Present**
Microsoft

JavaScript Skill Certification Test   **January 2022 − Present**
Hackerrank

Reactjs Skill Certification Test   **January 2022 − Present**
Hackerrank

Master Algorithm With C++   **December 2020 − Present**
Coding Blocks

Achievement

1. National Level Future Proof Hackathon Winner 2020 For the project EASYDOCS ANDROID APP
2. 5 STAR GOLD programmer BADGE on problem solving skill(HACKERRANK)
3. Best rank in HACKERBLOCK is 224 (ALL INDIA)
4. 200+ Leetcode Problems Solved
