- ✓ Started my career with my own institute, **Tecanon24by7** as a Trainer. I trained students on multiple technologies like HTML, CSS, JS and PHP with its frameworks.

+ Freelance Developer and Trainer (*along with graduation*)

PROFESSIONAL PROJECTS

- **Packt Store** (March 2022 - June, 2022)
Packt has started working on its new Store (<https://store.packt.com/>) last month only, and BOM asked me to take responsibility for its deliveries. Store is still in progress and I was working as a Business Owner.
Skills: Wordpress, Product Ownership, Scrum, ClickUp etc.
- **Packt Mobile** (Nov 2021 - March 2022)
Packt decided to make their web portal Mobile friendly. My role was to take care of their PWA application (<https://mobile.packtpub.com/>). I have successfully delivered this project in just 3 months. I was even engaged in providing solutions on multiple features we are implementing. Enhancements are taken care of by team members now.
Skills: HTML5, Css3, ReactJS, etc.
- **Packt+** (<http://subscription.packtpub.com/>) (June 2021 - Nov 2021)
I joined Packt+ team to enhance their website and reader with more features. We had a team of 10 people and I started working as a Senior Developer to provide end to end technical solutions.
Skills: HTML5, Css3, ReactJS, etc.
- **Map Creator** (Dec 2020 - May 2021)
GreyOrange is taking care of their robots (BOTS) by using this application. It's basically a map to manage Robots paths, pickup points, charging points, racks and so many things.
Skills: HTML5, Css3, ReactJS, etc.
- **DotPe** - <https://dotpe.in> (Dec 2019 - Oct 2020)

Now place your order from your table to avoid queuing in multiple stores. This is a startup by PayU & Golbibo Ex-Co-Founder.

Skills: HTML5, Css3, ReactJS, React Native, etc.

- **MotoInvoice** - <http://bajaj.motoinvoice.co.in> (Nov 2018)
India's No 1 Online Portal for Bike Dealers to manage their ERP and Enquiry System.
Skills: HTML5, CSS3, Bootstrap, JQuery, CodeIgniter, GIT, Cordova, Hybrid Mobile App etc.
- **LINK** - <http://link.lbsnaa.gov.in> (March 2019)
LINK is Lbsnaa Innovation Network, which is India's biggest network of all public servants like IAS, IPS offers etc. Lbsnaa is the only one IAS training Institute in India and its a government firm. Team is resolving the issues faced by public servants in different districts in India.
Skills: HTML5, CSS3, Bootstrap, JQuery, CodeIgniter, GIT, Cordova, Hybrid Mobile App and so many other technologies and tools.
- **Maestrofolks** - <http://maestrofolks.com> (Aug 2018)
It's a job portal by Gogyaanii Technologies Pvt. Ltd. where we are reaching out to maximum jobs and users according to their skills. This is the first job portal where each user can get a referral amount. Even myself can get a referral bonus on my job.
Skills: HTML5, CSS3, Bootstrap, JQuery, CodeIgniter, GIT, Cordova, Hybrid Mobile App and so many other technologies and tools.
- **Birdeye** - <http://www.birdeye.com> (Dec 2016 - July 2018)
Birdeye is built up for business reputation and customer experience. We provide a common platform to a business to verify its reviews on different sites. This is basically an online reputation management system.
Skills: HTML5, CSS3, Bootstrap, Javascript Technologies, AngularJS, ReactJS (Introductory), Heroku, DOM parsing, Kafka PHP and so many other technologies and tools.
- **Simpplr** - <http://www.simpplr.com> (Dec 2015 - Dec 2016)
Simpplr is a salesforce product which is related to social intranet where a user can share different types of posts within an organization. The groups are taken from Chatter of salesforce. It is an enhanced version of chatter in salesforce where a user can upload videos, albums, blogs, feeds, news and other content.
Skills: HTML5, CSS3, Bootstrap, Salesforce Components, PHP for web services, Apex, JavaScript, JQuery, Bootstrap, different APIs, etc.
- **TimeSheet** - <http://ts.simplion.com>
This project has been taken care of by me as a standalone developer. The project is for internal use of Simplion (Lirik) for team tasks and performance management by taking care of the tasks each employee is working on.
Skills: HTML5, CSS3, JQuery, Laravel, Google APIs.
- **Claim Reimbursement** - <http://expensify.lirik.io>
Similar to Timesheet, this project has been taken care of by me as a standalone developer. The project is for internal use of Simplion (Lirik) for taking care of reimbursements in the company.
Skills: HTML5, CSS3, JQuery, Laravel, Google APIs.
