| Database Operation | Microsoft office suite |
| Designing Softwares | AutoCAD, SOLIDWORKS |

PROJECTS

Project Name : AYURVEDIC TABLET MAKER

Role : Team Leader

Team Size : 4

Project Duration : 6 Month

| | |
|----------------|--|
| Project Detail | Ayurvedic tablet maker is an ayurvedic tablet making machine which produces tablets at high rates of production and finishing. The tablet maker working involves both electrical and mechanical process. The machine will be highly usable for ayurvedics centers which are at the verge of extinction. We got the idea of our project from our detailed study on tablet making processes at Keraleeya ayurveda samajam shoranur. All the process including both mechanical and electrical were done separately which increased the workload of the employees. We analysed their problems and introduced our concept of ayurvedic tablet maker in which all the processes of tablet making were assembled in a single machine. Thus helping the employees reduce their workload. |
