ABOUT ME

Dynamic and proficient Angular developer with over 2 years of hands-on experience in building dynamic web applications. Demonstrates expertise in HTML, CSS, Angular, JavaScript, and SQL, coupled with a strong commitment to achieving organizational objectives. Proficient in utilizing Angular frameworks to develop dynamic user interfaces and interactive web features.

WORK EXPERIENCE

Junior Software Developer, Automated Trading Softtech Private Limited. Gandhinagar, Gujarat

Feb. 2022 - Present

- Developed responsive and user-friendly web applications using HTML, CSS, and JavaScript frameworks like Angular.
- Develop reusable and modular components using Angular directives to enhance code maintainability and scalability.
- Integrated frontend components with backend services and RESTful APIs to fetch and display dynamic data, ensuring seamless client-server communication.
- Implemented two-way data binding and template-driven forms in Angular, facilitating efficient data manipulation and user input handling for enhanced application interactivity.
- Designed, developed, and maintained complex SQL queries, stored procedures to support data-intensive applications, optimizing backend data retrieval.
- Having fundamental understanding of version control principles, such as the importance of tracking changes, branching, merging, and managing repositories.
- Collaborated with cross-functional teams to integrate front-end interfaces with backend systems, facilitating smooth data flow and application functionality.
