Profile Summary

- ❖ Software Engineer with **3 years** of experience in developing highly scalable Cloud Suite Enterprise **Java** Applications in an Agile environment
- ❖ Contributed in Software Development Lifecycle (SDLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to the maintenance of proposed applications
- ❖ Interacted with users for requirement gathering; prepared functional specifications and low-level design documents
- ❖ Developed a voice chat interface in the chatbot which made the HCM application more user friendly; added 12 new features to the application
- ❖ Designed threading mechanism in 6 areas of the application which reduced the time by **60-70%**
- ❖ Effective analytical and technical skills with strong interpersonal, verbal and written communication skills

Core Competencies

- ❖ Software Code, Design & Development
- ❖ Incident Resolution
- ❖ Integration Testing
- ❖ Root Cause Analysis
- ❖ Project Execution
- ❖ Documentation

IT Skills

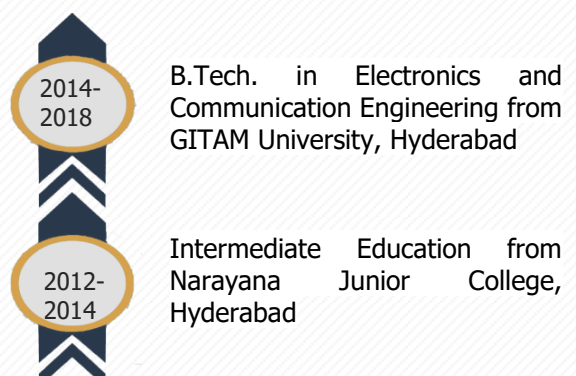

Java	Spring Boot
Databases (MS-SQL, MySQL)	JavaScript (Angular)
HTML & CSS (Bootstrap)	Android development using Java
Data Structures and Algorithms	Methodologies & Design Patterns (OOP, MVC, Factory Pattern)
Development Tools (Eclipse, Atlassian Jira)	Version Control (GitHub, AccuRev)

Soft Skill

Education

Associate Software Engineer, Infor, Hyderabad (Jun'18 – Present)

Projects Managed:

HCM Application Development (Oct'19- Present)

A cloud-based human capital management (HCM) software solution that empowers employees of the organization to deliver streamlined processes with remarkable experiences. This solution replaces complex processes, workflows, and systems with sophisticated, yet intuitive technology. It gives HR professionals the ability to connect your business and talent objectives to create significant value across your organization.

Responsibilities:

- ❖ Working with stakeholders across the organization to gather requirements for new systems and reports; collaborating with the core team of architects and developers spread across different locations
- ❖ Contributing towards designing codes for learning and development tools
- ❖ Developing software solutions for clients all over the world by studying information needs, conferring with users, studying systems flow, data usage, and work processes
- ❖ Implementing integration solution that fulfills client needs; translating requirements into technical specifications
- ❖ Ensuring solutions are highly configurable and extensible; developing data migration solutions
- ❖ Adding the import functionality which takes large amounts of data from other systems and creates data in corresponding tables in the new system as part of customer product upgrade
- ❖ Onboarding new joiners and training them about the functionality of the application

Highlight:

- ❖ Created more than 50% of widgets for various dashboards

Coleman, Infor Digital Assistant (Jul'19- Sep'19)

Bot-based text and voice chat interface for various Infor applications.

Responsibilities:

- ❖ Created and maintained high quality language packs in various languages for the collaboration products, both on premise and cloud-based
- ❖ Planned, defined and implement entire models, interfaces and workflows
- ❖ Performed day to day localization software engineering work for software user interface and documentation
- ❖ Troubleshoot, resolved, and documented localization issues and customer cases

Highlights:

- ❖ Created and maintained high quality language packs in various languages for the collaboration products, both on premise and cloud based
- ❖ Troubleshoot, resolved, and documented localization issues and customer cases

Application Integration (Nov'18-Jun'19)

This project involved integration between HCM application and other Infor and non-Infor applications through business object documents (BODs) which are XMLs that are exchanged between applications.

Personal Details

Date of Birth: 28th June 1997
Languages Known: English, Hindi and Telugu
Address: 207, Venkateshwara Residency, Vikas Nagar, Kamareddy - 503111, Telangana
