XML

APF Viewer

## PROJECTS

**Project ICOC (Improving Collections Operations Capability)** (August 2019 - May 2021)

Role

- As HP/OpenText Exstream Developer; I am responsible for developing dynamic document solutions, the solutions were complex in nature, cross-organizational in scope, and of significant importance to the organization's commitment to enhancing the consumer experience.
- Well-versed with usage of Design Manager and Designer of Dialogue tool in creating Application, Documents, Page Layout, Data Mapping, Components, Frames, Placeholders, Sections, Messages, Campaigns, Search Keys, Barcodes, Templates, Style Sheets, Tag Sets, Inserters, Output Queues and Multiple-Ups.
- Extensive coding and unit testing experience using HP/OpenText Exstream (v9).
- Good experience in generation of Statements, Letters, Notices, Invoices, Billing documents in AFP and encrypted PDF formats.
- Good experience in mapping different types of data files like Print file, Columnar, Delimited, and XML data files.
- Dialogue testing using EXSTREAM viewer, AFP/PDF Output queues and regression testing using AFP Compare tool.

## Drawing and Painting

### Cricket

- Analyzed organizational needs and goals for the development and implementation of application system.
  - Created the Documents, Data Files Customer driver, Auxiliary and Reference and Output Queues.
  - Created the Variables, Data Mapping, and Rules Writing.
  - Fixed the application issues.
  - Ensured all documents are provided, in a timely manner, in accordance with application requirement.
  - Reviewed and modified data files, including encoding and testing.
  - Extensive knowledge about Variables and Data Mapping of Print file, Columnar, Delimited, and XML data files.
  - Well versed with the Interface between Dialogue and Mainframe environment and the corresponding file transfer method for Data, PUB, PDF and AFP Files.
  - Review requirements with business partners, providing feedback and/or comments, and troubleshoot any implementation issues; consulting on Technical Builds.
  - In depth knowledge of document compositions, style sheets, variables, tables, document flow.
- Monitor and troubleshoot observations or concerns related to dialogue development-to include researching issues/defects to determine root cause.
