SALESFORCE SKILLS

Mostly I have been working on delivering custom solutions to customers using Aura or LWC as a UI and apex as a backend. Further Deploying it in CICD based setup both in native and non-native through repository.

IT SKILLS

- Used VS code as a daily IDE
- Used Meld and other tools for code diffing
- Used GitBash and VS code for push and pull of code to repository
- Followed a proper branching strategy using Azure, Github and bitbucket.
- Used Jenkins as a CD and CI tool
