- Used Firebug Tool to identify **the I Object's id, Name, XPath, link** in the application.
- Used UFT as it is primarily used for functional, regression and service testing.
- Performed defect reporting and bug tracking in **QC** and also followed up with development team to verify bug fixes, and update bug status.
- User Acceptance Test activities and **UAT** defect resolution in conjunction with the Project Manager/Business Analyst.

Project Summary:

Project	:	**TPM Metrics**
Client	:	**AbbVie**
Domain	:	**Life Science**
Technology	:	**Tricentis Tosca**

Project Description:

TPM metrics provides end to end visibility of our TPM / Suppliers and helps to identify manufacturing sights issues and highlight opportunities and standardize performance globally. Data insights around sight accidents, observations, exceedances and more assist in achieving our EHS goal of zero incidents.

Responsibilities:

As a team member, I was responsible for

- Understanding & Analyzing BRD documents.
- Prepared test scenario based on BRD documents.
- Writing effective test cases as per the system requirements.
- Performed Functional and Regression testing.
- Executed automated/manual test scripts and Analyze test results as per requirements.
- Performing functional and regression testing.
- Developed Test Suits based on Test Request for weekly release.
- Preparation of Test Execution report and Defect report.

Project Summary

Project	**:**	**Fleet Safety Analytics**
Client	**:**	**AbbVie**
Domain	**:**	**Life Science**
Technology	**:**	**Tricentis Tosca**

Project Description:

Track driver safety for a global fleet: Monitor my milage and accident trends for AbbVie's global commercial and R&D fleet, informing EHS on driver risk and preventative training. Track utilization of Lake country campus and commuter shuttle services o maintain efficient allocation of vehicle and ensure commuter safety.

Responsibilities

As a team member, I was responsible for
- ➢ Understanding & Analyzing BRD documents.
- ➢ Writing effective test cases as per the system requirements.
- ➢ Automation Script development using java in Selenium-webdriver and updating the existing automation scripts and executing them on new builds.
- ➢ Executed automated/manual test scripts and Analyze test results as per requirements.
- ➢ Performing functional and regression testing.
- ➢ Developed Test Suits based on Test Request for weekly release.
- ➢ Preparation of Test Execution report and Defect report

Declaration

I, Sathiya Priya A hereby declare that all the information furnished above is true and to the best of my knowledge.
