Projects

- **MEC Intelligence (Website)**
  Role - Mean Stack Developer
  Description - MEC Intelligence (MEC+) is a strategic advisory and market consulting firm with a focus on solving growth issues in the energy and cleantech market.
  Responsibilities -
    - Designing and implementing RESTful APIs to facilitate communication between the client-side and server-side components.
    - Building interactive user interfaces using Angular framework.
    - Managing databases (typically MongoDB) including schema design, querying, and data manipulation.
    - Managing the deployment of a website on the Azure cloud platform, ensuring smooth and efficient deployment processes.
    - Implementing deployment strategies such as continuous integration and continuous deployment (CI/CD) pipelines to automate deployment workflows, reducing manual effort and increasing deployment frequency.

  Environment - HTML5, SCSS, Angular 12, NodeJs, MongoDB, Bootstrap.
  Link - https://mecintelligence.com/

- **Liv365 (Website)**
  Role - Mean Stack Developer
  Description - Subscription based Online chartered accountants in New Zealand.
  Environment - HTML5, NodeJs, MongoDB, SCSS, Angular 12, Bootstrap.
  Link - https://liv365.co.nz/

- **Marco Aldany (Website)**
  Role - Means Stack Developer
  Description - With an experience of more than 400 salons worldwide and over 4000 designers, Marco Aldany is a leader in hairdressing and aesthetics.
  Environment - HTML5, SCSS, Angular 12, Bootstrap.
  Link - https://marco-aldany-8c9fd.web.app/

- **Know Your Dentist (Website)**
  Role - Mean Stack Developer
  Description - KYD is to provide a caring environment where our patient's comfort and health is of primary importance.
  Environment - HTML5, SCSS, Angular 12, Bootstrap.
  Link - https://www.knowyourdentist.in/

Activities

- Code Optimization Challenges: Participate in code optimization challenges to enhance your skills in writing efficient and high-performance MEAN stack code.
- Tech Webinars/Workshops: Organize or participate in webinars or workshops to share knowledge about MEAN stack development, staying updated on the latest trends and best practices.

- Code Review Sessions: Organize or participate in regular code review sessions within your team or community, fostering a collaborative environment and sharing knowledge about best coding practices.
- Online Courses/Training: Enroll in advanced online courses or training programs to deepen your understanding of MEAN stack technologies and acquire new skills.

Languages

- Bengali
- English
- Hindi

Certifications

- Angular & NodeJS - The MEAN Stack Guide, UDEMY
- NodeJs - The Complete Guide, UDEMY
- MongoDB - The Complete Developer's Guide, UDEMY
- Build NodeJs applications with Mongodb, UDEMY
- Introduction to Database Concepts, www.Alison.com (Online)
- Android app development with Angular, WebTek Labs Pvt. Ltd (Offline)
- Web Page Development, www.Alison.com (Online)
- PHP & MySQL, Techtree - Enhance Talent (Offline)

Passionate About

- Strategic Architecture
- Performance Optimization
- Community Engagement
- UI/UX Enthusiast
