Experience

Godspeed gaming Solutions Pvt. Ltd, Pune

04-2022 - Present

Associate Senior Tester

- Along with previous responsibilities, I am responsible for following priorities given by Senior Tester to ensure current team wide goals are met.
- Preparing Test plan by collaborating with Seniors, QA Lead and QA managers.
- Assigning Daily Tasks to Junior Team members based on Test plan.
- Keeping track of the issues reported by Junior Team members and suggesting improvements for the same
- Training and mentoring juniors on various tools that are used for testing.
- At the EOD, compiling team's report and sending it to client with DSR document.

Godspeed Gaming Solutions, Pvt. Ltd, Pune

05-2020 - 04-2022

Test Engineer

- Taking design brief from game designer and devs regarding new features that are going for the first time.
- Experience in Creating, Reviewing, Maintaining, and Executing Test cases based on Game Design Document.
- Performing various testing techniques including Functional, Regressions, Sanity, Smoke, Exploratory, Ad-hoc, A/B testing, UI testing, Network testing, and Localization testing.
- Logging defects encountered in the application through JIRA or Mantis during test cycles.
- Providing Root Cause Analysis on the reported issues as requested by developers.
- Also maintaining detailed records of encountered bugs and utilize the same to update the regressed defects.
- Actively participate in regular team meetings to discuss testing process and suggest improvements to the application design and features.
- Preparing daily status report document and sending to Seniors, QA lead, and QA Managers.

Globalstep Services Pvt. Ltd. Pune

10-2019 - 05-2020

Test Engineer

- Test build's functionality against design specifications to identify areas of improvement for quality, enhance UI/UX, etc.
- Logging clearly written bugs with correct Priority and Severity.
- Follow-up priorities set by QA lead and completing assigned task on time.
- Performed retesting to validate the resolved bugs on different builds.
- Maintained and recommend improvements on all tests and identified them in the development stage.
