Working as a Salesforce Administrator, CPQ Specialist, FSL Expert and Manual QA. Responsible for Requirement Analysis and implementation of the requirements provided by the Customer in an efficient manner. Experienced with Agile Methodology.

PROJECTS

Salesforce CPQ with FSI Implementation
Implemented **Lightning Community** for a customer using *Salesforce Service Cloud*. Created Several **Orders** and had to set up a **Community page for all Service resources and Guest Users**.

Document Generator With CPQ Implementation Worked on a **Document Generator** product where users could select several object's merge fields and the fields from their child objects.

Service Cloud - FSL centric Organizations
Worked for a client on Several projects involving **Service Cloud**. Implemented **Field Service Lightning** for the Client.

Major emphasis was on **Salesforce's Declarative Approach**.

Public Law Agency

Worked for a Public Agency with the implementation of **Advologic** package, **Accounting Seed.** Worked on **Salesforce Automation** using the declarative wizard , implemented **SSO** and **Salesforce-Outlook Integration and Gmail integration**.
