- Able to work in enhancement, maintenance, and production support projects and Develop programming code for existing software enhancements
- Develops program logic for new applications or analyses and modifies logic in existing applications
- Possess good, structured programming technique, debugging techniques, Unit Testing and Testing of application programs
- Expertise in ILERPG programming and developing procedures and Provide on-call support when necessary
- Troubleshoot system and application problems, working with end users and IT team to remedy
- Excellent understanding of Database, DDS, sub files, RPG III or later & RPGLE programming concepts
- Query/ 400 - Experience with ILE Advanced concepts (Procedures, Service programs, Functions, Free RPG coding syntax)
- Involved in Analysis, Design, Coding, and Testing and Documentation,
- Strong Knowledge in all phases of the Software Development Life Cycle (SDLC) from analysis through maintenance.
- Possess good structured programming technique, Debugging techniques, Unit Testing and Testing of application programs
- Interaction with client team independently
- Good interpersonal skills, committed, result oriented, hard working with a quest and zeal to learn new technologies.

## TECHNICAL SKILL

| | |
|---|---|
| Programming Languages | : RPG/400, ILERPG, SQL/400, CL/400, CLLE , Java and C++ |
| Tools | : SEU, SDA, DBU, DFU, RLU and QUERY/400. |
| Databases | : DB2/400. |
| Operating System | : OS/400 |

## EDUCATION

- M.C.A from Narsimhareddy Engineering college in 2011.

## PROFESSIONAL EXPERIENCE

- ➢ Worked as a Software Developer in **InvenTech Info Solutions** at Hyderabad from November 2022 to January 2023.
- ➢ Worked as a Software Engineer in **NTT Data** at Bangalore from April 2019 to 2022 September.

## PROJECT SUMMERY: 1

| | |
|---|---|
| **Title** | : SABB Payments. |
| **Client** | : HSBC |
| **Nature of Project** | : Banking Domain. |
| **Language** | : RPG400, AS400, RPG III, RPGLE, SQL RPGLE, CLP, CLLE, DB2/400,ILE DBU, SEU, SQL. |

**Description:**

SABB (SAUDI ARABIA BRITISH BANK) offers integrated financial and banking services, including corporate banking, investment, private banking and treasury. SAAB is a financial institution operating under SAMA supervision and control, and a partner of the HSBC group. SAAB is an internet banking module. Payments represents the mechanism via which a customer could interface with HUB (HSBC UNIVERSAL BANKING). We have to develop and support the back end of the website which is the backbone of the front-end application.

**Role and Responsibilities:**

- ➢ Analyzing the business requirements and preparing design documents.
- ➢ Analyzing the business process and client requirements and modifying the modules according to the client requirements
- ➢ Coding according to the given specifications.
- ➢ Preparation of Unit Test Case & Unit test result documents.
- ➢ Developed programs and Unit Testing
- ➢ Offshore Team meetings; Onsite Coordination.
- ➢ Coding, Reviewing & Testing. Preparing the Test Plans, Test Cases.
- ➢ Programming & Testing the Application according to the requirements
- ➢ Debugging and Testing of application programs.
- ➢ Sharing the Knowledge to the Resources and training Associates on AS400
- ➢ Analyzing and fixing bugs in the existing system
- ➢ Submitting weekly status reports
- ➢ Perform Unit testing and preparing of unit test cases.
- ➢ Worked with offshore QA in helping for the RPG programs' test.
- ➢ Involved in in Reviewing the Deliverables & Preparation of weekly, Monthly status reports.

## PROJECT SUMMERY: 2

| | |
|---|---|
| **Title** | : Follett Services and Technology. |
| **Nature of Project** | : Educational Products. |
| **Language** | : RPG400, AS400, ILE, RPG III, RPGLE, SQLRPGLE, CLP, CLLE, DB2/400, |

DBU, SEU, SQL.

**Description:**

Follett has been a trusted partner to Pre-K and K-12 schools, districts, and college campuses for more than 140 years, taking care of the critical details that make it easier for schools to run, teachers to teach and students to learn. Every day, we serve over half of the students in the United States, and work with 80,000 schools as a leading provider of education technology, services and print and digital content. We're higher education's largest campus retailer and a hub for school spirit and community as we operate nearly 1,200 local campus stores and over 1,600 virtual stores across the continent. Our vantage point and presence in the market – from early childhood all the way through higher education – gives us a unique perspective to know what teachers are teaching and how students are learning; to know what professors are adopting; to know what college students are buying, and to know how they are acquiring content and interacting with new technologies and retail environments available to them. We're more than just a book company, we're a gateway to knowledge harnessing our insights to help improve student outcomes and shape the future of education as we know it.

**Role and Responsibilities:**

- ➢ Coding according to the given specifications.
- ➢ Analyzing the business process and client requirements and modifying the modules according to the client requirements
- ➢ Making changes in the Calling program and Called programs
- ➢ Preparation of Unit Test Case & Unit test result documents.
- ➢ Developed programs and Unit Testing
- ➢ Coding, Reviewing & Testing. Preparing the Test Plans, Test Cases.
- ➢ Programming & Testing the Application according to the requirements
- ➢ Debugging and Testing of application programs.
- ➢ Providing Knowledge bites on weekly basis to the entire team.
- ➢ Sharing the Knowledge to the Resources and training Associates on AS400
- ➢ Analysing and fixing bugs in the existing system
- ➢ Submitting weekly status reports
- ➢ Perform Unit testing and preparing of unit test cases.
- ➢ Worked with offshore QA in helping for the RPG programs' test.
- ➢ Involved in in Reviewing the Deliverables & Preparation of weekly, Monthly status reports
