

# Chitra Sena Kollipara

A growth-oriented professional, targeting assignments in **IT Software - QA & Testing** with a reputable organization, preferably in **Hyderabad**

Ph.: +91 7893637542 | Email: [chitrasenak@gmail.com](mailto:chitrasenak@gmail.com)

## Profile Summary

- An **ISTQB Certified** professional offering **3 Years** of experience in **Quality Analysis & Software Testing**
- Capability in managing Software Development Lifecycle (SDLC) right from requirement analysis, documentation, coding & testing to maintenance of proposed applications
- Executed User Acceptance Testing (UAT), assisted clients during Testing Weeks to form & reinforce their confidence in UI
- Skilled in test planning and authoring test documents, managing the quality assurance program in the organization, overseeing metrics data collection and calculation
- Basic Knowledge on Linux commands and currently learning Automation Testing with Selenium
- Use develops tools like Jenkins, Docker, AWS Cloud Configuration, Git lab in testing environment
- Finished review activities such as requirements review, design review, test strategy review & test case review
- Excellence in leading projects through aggressive project governance processes; developing relationships with business stakeholders
- Skilled in providing overall leadership to the entire project team including managing deliverables
- Profound involvement in Scripting & Documentation, Functional Requirements, Test Plans, Cases & Processes, Testing Automation, Regression Testing, Defect/Bug Tracking, Test Strategies & Coverages
- Strength lies in analyzing problems, probing facts, and identifying & evaluating assumptions & issues to arrive at effective solutions
- A result-oriented individual with strong analytical, communication, interpersonal and organizational skills with the zeal to work with the best people and technologies while contributing to the organization as well

## Core Competencies

**Software Testing**  
**Verification & Validation**  
**API Testing**

**Quality Assurance**  
**Service Delivery**  
**Release Management**

**Defect Tracking**  
**U A T**  
**UI Testing**

## Work Experience

**Since Nov'17, Audintel India Private Limited, Hyderabad as Quality Analyst**

### Key Result Areas:

- Managed a high-performing Software Testing Team through all phases of application development; ensuring that information systems, products, and services met or exceeded organization/industry quality standards and end-end-user requirements
- Running various tasks to settle the data into the reports & dashboards, to display it to the clients
- Ensuring that all fields are loaded correctly by testing the Data in the database & utilizing SQL for testing
- Communicate UI, API, Database to display to clients by utilizing AWS & using Jenkins for continuous build purpose & commit new modifications
- Working on diverse testing strategies like unit testing, smoke testing, sanity testing, regression testing and re-testing to test the application for UI & API
- Conducting test plan execution and reporting the results of execution on new software, and solution products; coordinating test execution across multiple test organizations
- Setting out quality standards for various operational areas, ensuring a high-quality customer experience, while adhering to SLAs and work processes
- Creating awareness for driving the projects and process improvement strategy & methodology and ensuring maximum operational efficiency
- Managing architecture and designing the solution for the product along with extending post-go-live and application maintenance support to the client
- Designing applications & conducting software analysis, code analysis, software review, system risk analysis, software reliability analysis

## Highlights:

- Applied best practices for improving the performance of the team & retaining pace with the current technological change & development
- Generated comprehensive software testing plans that included resource requirements, schedule assumptions, and scope based on inputs from Development, Sales & System Test Management which included coordinating test plans across multiple test organizations & facilities
- Successfully conducted Manual Testing
- Capable in running the automated test suites and able to identify the errors in the automated test cases & solve
- Working with logistics and supply domain while testing with different forms of data to load into database with the help of SQL which meets the standard format of the database header

## Education

- B.E. (Electronics & Instrumentation) from Bapatla Engineering College, Bapatla in 2017 with 75%
- 12<sup>th</sup> from Sri Chaitanya junior college, Board of intermediate in 2013 with 88%
- 10<sup>th</sup> from Sri krishnaveni residential talent school, Board of secondary state certificate in 2011 with 75%

## IT Skills

- Jenkins
- Docker
- UI Testing
- API Testing
- Client/Server
- Git Lab, Git Hub
- AWS Cloud Configuration
- MY SQL Server 6.5, 7.0, 2000
- Performance Testing & Load Testing

## Personal Details

**Date of Birth:** 20<sup>th</sup> November 1995

**Languages Known:** English, Hindi & Telugu

**Address:** Yousufguda, Hyderabad, Telangana – 500045

**Hobbies:** Cooking, Travelling, Playing outdoor Games.
