Communication Skills

PERSONAL PROJECTS

Online Blood Bank Management System
(06/2018 - 06/2019)

- Based on the **nearest location** of the Donor, Using the maps we can identify the Nearest Donor of the Blood with the required Blood Group and also we will show the nearest blood bank with no of ml of blood group available in the blood bank .Not only Blood Banks but also show them the Hospitals that contain the blood group

Highway Agents (03/2018 - 06/2018)

- I have solved State related problem statement regarding the Highways and developed android app based on the location the contractor can have the workers of different types for construction of same location without taking the workers from other places
