## Projects Worked On

---

- **Ultria CLM**

**Description:** This application brings the powerful features and capabilities of Ultria Contract Lifecycle Management solution to Salesforce users who can now request, review and execute contracts from the native Salesforce environment.

Ultria Contract Lifecycle Management is an end-to-end, “Request to Renewal” contract management system for the enterprise. With Workflow based authoring, smart clause and template library support, and unique collaboration and post award compliance features, Ultria helps companies maximize value from their contracts while minimizing risk.
