## OBJECTIVES

To succeed in an environment of growth and excellence and earn a job which provides me with job satisfaction and self-development and helps me achieve personal as well as organizational goals.

## WORK EXPERIENCE

Accenture India (2017-Present)

Worked on 4 Projects for around 4.9 years in Rail Transit & Finance Domain.

Experience in working with Angular modules, services, templates, directives, services, routing, promises and dependency injection to create an SPA.

Experience in development and implementation of real time applications using Angular, Node js and SQL in a AGILE environment.

Worked on AWS services like Cloud watch, S3 bucket, SES etc.

Tech Stack : Angular, TypeScript, JavaScript, Node Js, JSON, GIT, AWS

## PROJECTS

### Project 4: Online Solutioning Project (INSPIRE IO)

Hyderabad (04/2020 – Present)

- Analyzing the requirements & work with business team for sprint work item curation & preparation.
- Worked on developing end to end flow for the screens in the application.
- Worked on angular components, services, routing, directives & pipes, promises, sending data b/w components, error logging etc.
- Worked on REST APIs using Node.js backend modules for getting data to the Angular Front end.
- Created SQL stored procedures, migration scripts as part of developing screens for saving and retrieving data from databases.
- Used AWS services such as S3, CloudWatch, SES for required use-cases using AWS SDK on nodejs.

**Project 3: Online Solutioning Project (ONLINE SEP)****Hyderabad (10/2019 – 03/2020)**

- Worked on migrating legacy screens to Angular.
- Used ag-grid for displaying of data in tabular format.
- Used libraries such as XLSX-Populate for working with excel reports on the frontend and on backend.
- Worked on Production patches, rollback scripts and Migration Scripts etcfor the database.

**Project 2: Online Solutioning Project (INSPIRE BPO)****Hyderabad (04/2019 – 09/2019)**

- Used Angular for developing the UI for the application.
- Worked on angular modules, components, services, directives etc.
- Resolving the bugs raised during testing.
- Actively supported business for change requests and provide support to team members.

**Project 1: Online Ticketing Solution Project (AFMS)****Hyderabad (02/2017 – 03/2019)**

- Deploying daily manual patches based on release notes for various technologies used in project within the downtime.
- Handing over the environment to testing team after performing basic sanity and support their ad hoc requests for running jobs and processing files.
- Support onshore deployment team in deploying and in resolving issues for higher environments.
- Responsible for preparing the environmental health check document of higher client facing environments which will be shared with the client on daily basis.
- Involved in high level design discussions and prepared technical design and process flow documents based on the functional specifications.
- Troubleshoot and resolve the issues raised by testing team using the functional knowledge and by collaborating with build team.

**TECHNICAL SKILLS**

- Angular
- JavaScript
- TypeScript
- Node js
- SQL

## **EDUCATION**

- Graduation: 2012 – 2016

B.E in Electronics and Communications Engineering (ECE) ,Chaitanya Bharathi Institute of Technology(CBIT), Hyderabad – 85%

- Intermediate (+2): 2010 - 2012

Narayana Junior College, Vijayawada – 93.3%

- SSC: 2010

Sri Krishnaveni Talent School,Vijayawada – 94.2%
