PROJECTS

- **DSM – Demand side management. (IDEfforts Software Solution May 2019 - Present)**
  Energy demand management, also known as demand-side management or demand-side response, is the modification of consumer demand for energy through various methods such as financial incentives and behavioral change through education. We were mostly focused on financial incentives calculation based on the selection customer made for the appliances.

Technology Used: Salesforce, .net, Joomla, Apex, VF page, Batch Class, Process Builder, Workflow, Triggers, javascript, jquery.

- **DSM – Instant Rebate. (IDEfforts Software Solution May 2019 - Present)**
  Instant Rebate is part of DSMT where customers apply for rebates on an electronic equipment's. Instant Rebate is a module designed on salesforce platform where we have implemented a salesforce site where customer applies for a rebate on a product, they enter their details which gets validated with the client's API systems. If customer is a valid then a coupon gets issued to them for a specific product which they apply.

Technology Used: Salesforce, Joomla, Apex, VF page, Batch Class, Process Builder, Workflow, Triggers, webservices, javascript, jquery.

- **ESM - Enterprise Supplier Management. (Sailfin Technologies Mar 2016 - May 2019)**
  It is a product to handle Procure to Pay cycle of ERP. ESM's mail functionality is to do 2way and 3way match and validate invoice, is invoice is valid get approval and if not then generate proper exception

based on business requirement. I have been an integral part in successful development and implementation of this product.

Technology Used: Salesforce, Heroku, NodeJs, AngularJs, ExpressJS, Apex, VF page, Batch Class, Process Builder, Workflow, Triggers, PostgreSQL, Custom Dataloader.

- **Trading account. (Codiot Technologies Dec 2014 - Mar 2016)**
  Me and My Team working with one of the Mutual Fund's Product that is divided in three types of project Online Trading, ExchangeTrax like Offline Trading and Trading Account like a Back Office. JSB(Jethmananis Share Bazar)'s Provide a facility to Client directly Purchases and sales Mutual Fund also manage all type of Transaction Reports and his transaction status on Online trading project as well as client go to Head Office and give a request to Partner for Purchases and Sales Mutual Fund using ExchangeTrax(Offline) trading then completed process of purchase and Sales JSB get Money from Client Bank account using Trading Account Project.

- **Technology used:** java, jsp, Spring MVC, Spring Security, Spring Data, Oracle, Jquery.
