WORK HISTORY

Total IT Experience: 3+ Years

Salesforce Exp: 1.5 Years | **Mainframe Exp:** 2 Years

From: June 2017 to Present

Notice Period: 2 Months

Role: Senior Project Engineer / Software Developer

Organisation: Wipro Technologies, Pune, Maharashtra

About Role: Being a developer, I am working on Mainframes and Salesforce simultaneously earlier for Credit Suisse account and now for Magnetti Marelli. Tasks include making changes in existing modules for the ongoing Brexit project. Also to write sort cards to filter and perform necessary operations on datasets. Being on Salesforce side, building apps, Visualforce pages with apex codes, and working with automated tools like workflow and process builder.

Credit Suisse, being a financial services account, was responsible for writing shell scripts which consumes financial data as input and processes data as per Business requirement document (BRD).

Marelli, being a manufacturing account, responsible for Global Processing and Information control system, managing accounting at the legacy side and processing control using automated tools like Microfocus and Unix shell scripting.
