Summary

- Automation specialist with over **9.6 years** of experience skilled in architecting and deploying highly available IT systems on-prem or in public/private infrastructure clouds like **AWS, Azure, OpenStack** using **Terraform, Chef, Jenkins** etc.,
- Part of a globally distributed team providing Professional Services (development, support and consulting) on Chef products for **Chef Software Inc.**,
- Experience in designing, architecting and supporting high performant, highly available systems at Large scale.
- Specialising in Agile, Continuous Integration (**CI**), Continuous Deployment (**CD**), Cloud, Infrastructure as a Code, Infrastructure Provisioning, Orchestration, Monitoring, Alerting and Dash-boarding.
- Thorough experience in building future proof IT systems applying DevOps best practices, following Agile methodologies, using well designed automation processes, tools & technologies.
- Very good experience in Designing, Automating, Application Deployment across varied Middleware technologies Tomcat, Jboss, Weblogic, Apache, Nginx on Linux systems.
- Enjoy helping companies develop, integrate, build auto-scaling, self-healing environments by treating infrastructure as code using **Chef** and **Terraform** by reducing waste and unnecessary friction in their technical transformation.

Skillset

Configuration Management Tools	Chef, Ansible
Infrastructure as Code Tools	Terraform
Network Security Solution Tools	OpenVPN
Orchestration and Scaling Tools	ECS, AKS, Docker Swarm
CDN	CloudFront, Akamai, Verizon
Serverless Computing Platform	Lambda
Continuous Integration Engine	Jenkins, Bamboo
Private and Public Cloud	AWS, Azure, OpenStack
Operating Systems	Redhat, CentOS, Amazon Linux, Ubuntu, Windows, Debian
Network Platform	Cisco Switches, Routers, IP Management, BGP, OSPF, RIP, OSI Model, TCP/IP
Programming Languages	Bash Shell, AWK, SED, Ruby, Python Boto
Monitoring Tool	CloudWatch, Grafana, Sensu, Nagios, New Relic, Apica
Source Code Management	Git, SVN
Code Repository Management	Github, BitBucket
Project Management Tools	Jira, Trello
Web Server & App Server	Apache, Nginx, IIS, Tomcat 5/6/7, Weblogic, Jboss
Database	MySQL, MongoDB, PostgreSql
PaaS	Vagrant
Centralized Logging	Loggly, Splunk, ELK

Containers

LXC, Docker

Work experience

One Championship
Lead Devops

<https://onefc.com>
May 2018 - Present

Relevance Lab
Lead Devops

<https://relevancelab.com>
Nov 2013 - May 2018

Ness Technologies Pvt Ltd
Software Engineer

<https://www.ness.com>
July 2011 - Nov 2013

Education

Bachelor of Engineering
Saraswati College of Engineering

July 2008 — June 2011

Certification

CCNA: Cisco Certified Network Associate (Verification Code :- **407274156414FLZG**)
