## Experience:

CBI Cyber Security Solutions – **Senior Information Security Engineer** Jan 2020 to Jan 2021

*Worked with Checkpoint and Juniper firewalls. Wrote, reviewed and implemented firewall exceptions within a highly secure network.*

Merkle Inc - **IT Infrastructure Security** 2018 to 2019

*Worked with blue team with DLP and filtering. I also worked on creating, implementing and maintaining a highly secure network with strict controls and requirements.*

HelloWorld Inc - **Tech Lead / End User Support** 2018 to 2019

*Working directly with end users remotely and in person to resolve issues. Managed SCCM, AD and Office 365.*

McLaren General Hospital – **Network Administrator** Jan 2018 to Aug 2018

*Maintained the network, End user support, Laid fiber cable and mapped the network.*

Millennium Digital Technologies - **Network Security Engineer** 2015 to 2016

*Maintained, Created and Installed PCI Compliant networks to a high volume of customers. Worked with Cisco and SonicWall to manage these networks. Maintained and monitored VLANs. Ensured compliance.*

IT Contractor for Managed Services – **Network Administrator** 2008 to 2015

*Worked for managed service providers. Providing everything from desktop support to network and server support.*

Elite Computer Solutions – **Intern** 2006 to 2008

*Full time, non-paid internship. Learning the basics to computers, servers and networks.*
