Pritam Mondal |Senior Developer (.NET, Angular) | Creative | Energetic | Curious

Objective with a High purpose in mind my quest is to achieve a High platform and leave a legacy behind

Address: Ground Floor, G1, Krishnapur, Kolkata, 700102 (Current)

Contact: **(+91) 9800359741**   Email: ultimatepritam@hotmail.com

GitHub: Github.com/Ultimatepritam   Website: ultimatepritam.in

Skills

- **Programming Languages:** C#, Python, TypeScript, JavaScript
- **Database Management System:** PostGreSQL, SQL Server, DynamoDb
- **Technologies and Frameworks:** .NET Core, Angular 10, AWS Lambda, Azure AD, SQS, Glue, ML.NET, Sage Maker, Scikit-learn
- **IOT Skills:** Raspberry Pi, Arduino
- **Unit Testing:** Xunit, MOQ, Nunit, Jasmin-karma
- **Familiarity with:** Jenkins, XL Release, Docker, Jira, GitHub, SonarQube
- **Learning:** Rust (as of August 2022)

Education

- 2014-2018: B. Tech in Computer Science with highest SGPA 9.7 and overall **CGPA 8.4** (Techno India University, West Bengal)
- 2014: H.S.E (10+2th) Best of five **82.40%** (SHS, Sainthia, West Bengal State Board)
- 2012: Secondary (10th) Best of five **91.40%** (STHS, Sainthia, West Bengal State Board)

Summary

Acting as lead Backend developer, having 4+ years experience in Dotnet Microservices, Angular Frontend, AWS Lambda, Azure AD Cloud Solutions Tech stack, also worked on multiple projects with Realtime communication (AWS SQS, WebSocket, Kafka, redis). Aspiring to become a Solution Architect, worked with Multi-layer Architecture, Dependency Injection and more.

LinkedIn Profile: https://www.linkedin.com/in/ultimatepritam

Roles and Experience

- **Mindtree Campus Mind (Oct 2018- Jan 2019)**
  Orchard Project : MyCar, I built an eCommerce website to sell new and used cars, The backend WebAPI was in .NET Framework and the Frontend was in Angular. Used JWT Role based authentication as well as OAuth, Frontend was role separated (buyer, seller, admin)

- **Software Engineer (Jan 2019- Dec 2020)**
  Worked on On-premise applications that needed some enhancement, the tech stack was .NET Core Microservice with Angular Frontend, worked as a Full Stack Developer, taking end to end responsibility of all the pages, full CRUD operation with Code first approach on Entity Framework and Frontend user interface. Implemented a page where you need to show a specific Diagram on an Andon screen in Realtime.

  Projects: 1. Promotion Planning Management (for a global Retail giant)
  2. CDTS Kaizen – (for Automobile giant)
  3. CDTS Modernization - (for Automobile giant)

- **Senior Software Engineer (Jan 2021- Present)**
  Working on incredible technologies, .NET 6 Microservice, Angular 13, Azure AD Authentication, AWS Lambda development, Realtime WebSocket connection with SQS, API Gateway, Sage Maker, deploying api on ECS cluster and many more.

  Projects: 1. PCMS Modernization – Phase I (for Automobile giant)
  2. PCMS Modernization – Phase II (for Automobile giant)

- **Personal Projects (eternal) (https://github.com/ultimatepritam)**
  I take various weekend projects as per my liking, most are available on my Github page

  Projects: 1. Python HelloWeb – AI Assisted Learning tool
  2. Raspberry Pi Jarvis – Smarthome Automation
  3. Tensorflow Facebook Comments Sentiment Classifier
  4. Angular Snake Invader Game, up and running at
  (http://snake-invader.herokuapp.com)

Achievements

- 3x SpotOn Awards, 8x Manager Appreciation Awards, 6 Peer Appreciation Awards
- **Winner** of Mozilla HelloWeb Hackathon Kolkata Chapter, 2016
- Ranked 2nd in Intercollegiate Cryptoquest and Ethical Hacking Competition (Avenir'16)
- Ranked 3rd in web designing contest Webyard (Vivarta'17)
- Completed 8+ 201 expertise courses in Yorbit Internal Course portal on relevant technologies

Personal Details

Date of Birth: 25-11-1996
Citizenship: Indian (holds valid Passport and PAN)
Language: English, Hindi, Bengali
Hobbies: Photography, Painting, Blogging, Philosophical discussions, Books and Magazines :)
Permanent Address: Bamdev Pally, College Road, Sainthia, Birbhum, West Bengal 731234
