Work Experience

Organolite, Nagpur

MAY, 2014 - FEB, 2015 (10MOS)

- At Organolite, my first start-up venture, during final year. We used to supply organic vegetables via both online and offline orders. In this supply chain based model, we used to handle end-to-end procurement and delivery.

Tech4Art, Nagpur

NOV, 2013 - FEB, 2015 (1Yr 4MOS)

- At this second start-up, we developed two products, a web based educational mini ERP system and a Customer Relationship Manager (CRM) for local markets. I was managing the UI level part.

QICE Technologies Pvt. Ltd. Nagpur

FEBRUARY, 2015 - MAY, 2015 (4MOS)

- Worked as a front end developer, designer - easytaxguru, and two android products.

GoodYaari Mobile Technologies Pvt. Ltd. Nagpur

MAY, 2015 - JULY, 2017 (2Yrs 3MOS)

- I started working as basic UI Developer.
- After that I have worked as Java Developer.
- Then I shifted as Backend developer like developing APIs, and handling the Server Side SQL.
- I have done full manual testing android / iPhone.
- Finally, I have converted many test cases in automation.

Great Place IT Services(GPIT), Nagpur.

OCT, 2018 - FEB, 2021 (2Yrs 5MOS)

- Company hired and welcomed me as a manual tester.
- I Understood Multiple platforms like Trust Impact, Happiness Index, Journey, Pulse Survey and the whole system Feedback, Evolution, Reports.
How to log and manage issues in JIRA? How to manage test cases in the Excel ? Find which area can be automated?
- Switched from Manual tester to automation. Converted many manual test cases into Automation.
- By doing so hard work worked as a development in very less time on Django, .NET. Django is the technology for long term goal to work upon. For Data Science purpose.

Academic Project

RFID-Gate lock automatically

MENTOR: RAUT MAM.

- Basically, I worked as UI(User-Interface) designer. Where we implemented a RFID based gate. **Usage:** Gate will automatically lock and open, which can be activated using one card.

Other Projects

HaatBhaar(*Sabka Haatbhaar, Sabka Uddhar*)(Ongoing)

JULY, 2017 – In future will be working on it.(3Yrs 9MOS)

- Farmers are the key source to grow Indian GDP. Though government agencies working for farmers, there are many problems farmers are facing like Human Resources, No supply chain for procurement and delivery, Traditional Farming, and many more. My idea is to be giving farmers solutions so that they would focused on the farming only instead of worrying about their problems. I was gathering information about healthy farmers, vendors and intelligent in the Rural area to resolve farmers basic problems. The idea is still alive in my heart. It is long term goal.
- Helping to improve farming. Full attention on farming only. Avoid 50% attention on resources and labor, and focus 100% only on farming is the good option to improve farming. As **Paani Foundation** working is the only role model to do farming all the time. **Sabka Haatbhaar, Sabka Uddhar** is development of all with helping hands of all. Distribution of resources, products within villagers is one of the key point of the project.

TenderKhojo

- Get all notification of all kind of tenders.

CNWasnik

- School information.

Schooladmission

- Area wise Listing of school. Parents can search & find and by knowing their reputation can get admission.
