- Bsc.IT, Graphic Era University
- ISTQB Certified
- ACCELQ Certified
- ACCELQ Advanced Certified

Technical Skills

- ACCEQ Tool
- Automation Framework
- Keyword Driven and Data Driven Framework Selenium
- Working knowledge of API testing through Rest Assured
- Mobile testing through Appium
- Working knowledge of CI / CD pipeline through Jenkins, Git, GitHub
- Working knowledge of BDD using Cucumber and Gherkin
- Working knowledge of Maven continuous integration
- Sound knowledge of Object-Oriented

Projects:

AccelQ Adoption:

- Learned AccelQ, managed the adoption of AccelQ within the organization by conducted training sessions for org-wide resources (technical and management) covering advanced features, best practices, and optimization strategies. Became the go to SME for AccelQ within Beam Suntory.

- Integrated with CI/CD Pipeline (Jenkin), Jira, Database (MySQL and SQL)

- Resulted in increased efficiency, reduced errors, and improved team collaboration.

Salesforce and AccelQ Integration

- Orchestrated a successful Proof of Concept (POC) using AccelQ for Salesforce, demonstrating the potential of this powerful automation platform.

- Highlighted how AccelQ's automation capabilities streamlined Salesforce processes, resulting in improved efficiency, and reduced manual effort.

- Engaged with stakeholders throughout the POC, gathering feedback and insights to refine the solution for maximum value.

- Presented a vision of how AccelQ can contribute to our long-term Salesforce strategy, offering a glimpse into the potential benefits of full implementation.

Senior Quality Analyst at Publicis Sapient
June 2019 — December 2019

- Performed both automated and manual test executions, ensuring comprehensive test coverage.

- Created and maintained manual test cases, ensuring well-organized resources for team efficiency.

- Collaborated within Agile and Scrum frameworks to achieve project milestones and meet tight deadlines.

- Regularly communicated quality updates to key stakeholders on a daily, weekly, and monthly basis, facilitating informed decision-making

QA Engineer at Outbooks Outsourcing Pvt Ltd
June 2017 — June 2019

- Executed automated and manual tests, ensuring thorough test coverage.

- Developed and updated manual test cases, optimizing team productivity and organization.

- Collaborated within Agile and Scrum methodologies to achieve project milestones.

- Provided frequent quality updates to key stakeholders, supporting informed decision-making on a daily, weekly, and monthly basis.

Programming concepts (OOP).

- Manual Testing

- Well acquainted with all phases of SDLC and STLC.

Professional Skills

- Communication Skills

- Adaptability

- Teamwork

- Problem solving

- Leadership

- Fast Learner

- Presentation and Documentation skills

- Work experience in mixed-cultural environments and cross boundaries

- Result oriented, recognized for project execution acumen and problem-solving ability.

Software Engineer- Testing at Tatras Data

December 2015 — May 2017

- Conducted comprehensive document analysis to grasp testing requirements.

- Formulated test cases and determined testing priorities.

- Contributed to Selenium-based Automation Infrastructure Development.

- Engaged in Regression Testing utilizing Selenium automation.

- Identified diverse scenarios for Functional, UI, Integration, and Back-end Testing.

- Crafted test cases for UI and functional testing based on specified scenarios.

- Created test plans and cases for user acceptance testing, aligning with customer needs.

- Supported the development and testing of new software applications, ensuring smooth production transition.

QA Engineer at SmartBuzz webservices Pvt Ltd

July 2013 — November 2015

- Identify various scenarios for functional, UI, integration a Back End Testing.

- Deciding the strategy and methodology for manual testing.

- Written test cases for UI and functional testing as per the scenarios Created. Effort analysis for manual testing.
