Objective

To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately

Projects

- **KeyBank(USA)**

Working in a banking project which implements ncino for their business solutions. It deals with loans, product package, opportunity and other Salesforce objects to provide better banking experience to the customer and employees.

The project deals with different products of loan and we support the client in every stage of the loan from it's proposal, during it's due diligence and till it's booked stage. We achieve this by using various Salesforce functionalities like workflows, approval process, Apex triggers, classes, visualforce pages.

Experience

- **Tata consultancy services**

2013 - Present

Salesforce developer

- Expertise in Salesforce configuration/customization as developer.
- Developed user interface, page layouts, tabs, custom objects, validation rules.
