Meticulous in maintaining highly functional digital systems for uninterrupted workflows and consistent productivity. Oversees routine maintenance checks and software update schedules to reduce network downtime and likelihood of security compromises. Loves collaborating with customers and teammates to develop and implement creative technical solutions to challenging problems.

Technical Profile

- PostgreSQL
- Workato
- Tableau
- MySQL
- Rest API
- Objective C
- Ruby
- Python
- JavaScript
- Node.js
- AWS CloudFormation
- Amazon Web Services
- GitHub

Competencies

- Solutions deployment
- Programming
- API design knowledge
- Build releases
- Database programming
- Product development
- Agile

Work History

2019-02 - 2023-05

Senior Integration Engineer
Opsuccess, Delhi

- Created and deployed single code base architecture with monthly release cycle to be deployed for customers like Aurea Software, Workforce and Ayla Networks.
- Worked on developing new integration for Salesforce, Jira, Netsuite, OpenAir, Smartsheet, Google Analytics, Google Sheets, PSA using Workato.
- Created API's using Workato (API Platform) for front end integration.
- Followed Agile Methodology.
- Leveraged third-party applications and middleware to develop integrations.
- Developed tools, systems and processes to improve product supportability or overall support productivity.
- Monitored and tested application performance to identify potential bottlenecks, develop solutions and collaborate with developers on solution implementation.
- Analyzed and designed specifications used for enhancements and extensions in applications, interfaces and mappings.
- Recommended system modifications to improve efficiency, reliability and performance.

2013-02 - 2019-02

IOS Lead

Loyakk, Inc, Delhi

- Developed single code base to push over 100 customer branded custom app with LoYakk framework.
- Developed LoYakk framework to push native app in 6-8 hours.
- Worked with customers like Infosys, Mphasis, Abbott, Indegene.
- Researched and selected APIs for integration into development projects.
- Worked with quality assurance team to confirm app compatibility with analogous solutions on other platforms.
- Maintained existing mobile applications by designing patches to be applied via iOS automatic updates.
- Applied Agile software development methodology to elevate final products and streamline development efforts.
- Followed Apple's Human Interface guidelines to create products aligned with iOS UI norms.
- Complied with Apple App Store guidelines to provide rapid approval and deployment to retail channels.

2011-06 - 2013-02

IOS Developer

Enterprise Mobility Xperts, Chandigarh

- Worked with quality assurance team to confirm app compatibility with analogous solutions on other platforms.
- Researched and selected APIs for integration into development projects.
- Integrated existing third-party APIs to shorten development times.
- Performance tuning of applications.
- Followed Apple's Human Interface guidelines to create products aligned with iOS UI norms.

Education

Bachelor of Technology: Information Technology

SUSCET - Tangori Mohali

Accomplishments

- Quick learner - moving from iOS background to Integration had the opportunity to explore the other side of software development. The journey taught me about databases, connecting to different systems (**Salesforce, Netsuite, OpenAir, Zendesk, Jira, etc** using **Workato**)
- Collaborated with team of 10 in the development of Integrations for CVC.
- Supervised team of 4 staff members.
