- Worked in different phases of manual testing like Functional Testing, Regression Testing, Performance Testing.

Previous Experience

Jun'11 – Apr'15:	Infosys Ltd., as Operation Executive (QA)
-------------------------	--

Key Role:

- Gathered the requirements and compiled them into Test Plan.
- Prepared Test Cases, Test Data, execute test, validate results, Manage defects & report results.
- Functional and usability testing of the Intranet and Internet Portal of the Income Tax.
- Performed Black Box, Performance testing during the life cycle of the product release.
- Data setup for full performance run using SQL database queries.
- Design, Build and execute performance scenarios using IBM RPT tool.
- Identify and analyze performance bottlenecks during the Performance Testing.
- Regular interaction with client on critical issues.

Few Key Projects

Project: System Management SCER

Client: NCR

Period: Since Jan'18

Role: Scrum Master

Technologies: Java, Hibernate, Spring MVC, Maven, Oracle/SQL Server. Spring Integration, Selenium with BDD, Rest Assured

Environment/Tools: Active MQ, Maven, Jenkins, Sonar, IBMMQ Series, Junit, Mockito, Agile Methodology

Description: System Management SCERs is the Pre-Sales work that the team does for the NCR client. We work on the desired customer features, propose solution, prepare estimation and deliver. This is one-point team to the NCR client for any new feature development. Developed multiple SCERs for multiple NCR Clients, i.e. BMO (Vision Remedy Integration), ABSA (Site Management) AK Bank (Weighted Hours) Santander-MX (Cash Management), Evertec (Performance Report), Vocalink (Hooper Mode), CACP (Managed Client Delete from DIU), BMO (Power Campaign), NCG, Windows Authentication for CEB, Data Purging for CACP, Bankia SCER, RBS SCER, ETC SCER, SNMP SCER, Vantiv, Al-Rajhi, NCG.

Project: Aprta Vision Hermes & Vision Vantage

Client: NCR

Period: May'16 – Jan'18

Role: QA Lead

Technologies: Java, Hibernate, Spring MVC, Maven, Flex UI, Oracle/SQL Server

Environment: Maven, Sonar, IBMMQ Series, Junit, Mockito

Description: Vision Hermes is an automated service-level management system. It identifies problems that occur in a managed network of self-service devices, such as ATMs. Hermes tracks the problems, dispatches service teams if necessary, and solves the problems without relying on Help Desk operators.

Project: NCR EMV Certification

Period: May'15 – May'16

Role: QA Engineer

Technologies/Environment: ASP.Net 4.0, C#, SQL Server 2008R2, TFS, Linq, Jscript & jQuery

Description: EMV (Europay, MasterCard and Visa) cards are smart cards (also called chip cards or IC cards) which store their data on integrated circuits rather than magnetic stripes, They can be contact cards that must be physically inserted (or "dipped") into a reader, or contactless cards that can be read over a short distance using radio-frequency identification (RFID) technology.

Project: Income Tax TDS-CPC

Period: Nov'12 – Apr'15

Role: Test Engineer

Technologies: Java, DB2, Jscript & jQuery, Angular,

Description: TDS (Tax Deducted at Source) Centralized Processing Cell (CPC) or TDS CPC is a transformational initiative undertaken by the Income Tax Department (ITD) to enable easy filing of TDS / TCS correction statements by deductors/collectors and related functionalities.

Project: VITERRA – Infrastructure Support

Period: Jun'11 – Oct'12

Role: Windows/Server Administrator

Tools/Environment: LANDesk, CITRIX Environment, BMC Remedy tool

Description: Viterra is an agro-based Company committed to deliver essential ingredients to fulfill the world's nutritional needs. Headquartered in Canada, Viterra is a global agribusiness with extensive operations across North America, Australia, New Zealand with Adelaide, Australia as the base for Viterra's South East Asian operations.
