WORK EXPERIENCE

TCS, New Delhi

Nov 2020 — Present

Salesforce LWC Developer

- Developed and maintained Lightning Web Components (LWC) based pharmacy application from scratch using JavaScript, LWC components, and SLDS to create custom user interfaces and improve user experience.
- Designed and implemented custom Salesforce objects, fields, and relationships as per business requirement.
- Developed and maintained Salesforce triggers and Apex classes to automate business processes and integrate with external systems.
- Created multiple controller methods using synchronous and Asynchronous Apex in conjunction with SOQL, SOSL to interact with the Salesforce database effectively
- Worked on 15-20 Salesforce API integration service callouts involving (GET, PUT, POST, DELETE) methods
- Developed and executed test scripts to ensure high-quality Salesforce apex code and integrations
- Managed Salesforce data using Data Loader, and other tools to import, export, and update large volumes of data.

TCS, New Delhi

Snaplogic Developer

- Created 40+ pipelines which automate the files consuming process
- Integrated with SQL Database, FTP server and SMTP server involved in the workflow

PERSONAL SKILLS

- Good analytical skills in debugging the code and identifying the root cause
- A team player, good at working collaboratively with people in order to achieve a common goal.
- Good at observing subtle details and can take decisions effectively.
