- Developing test scripts for all functional, GUI and data verification for each functionality.
- Worked as Manual, Automation and Functional Tester.
- Investigating/Analysing automation failures.
- Developed the Automation Test Scripts in Selenium Web Driver using Java, based on the design pattern Page Object Model and used Data Driven Framework for reusability.
- Participated in daily Scrum Meetings, Sprint Planning Sessions, Sprint Review and Sprint Retrospective Sessions.

Primus Global Technologies. (Aug 2020 – Nov 2021)

Nature of work in Primus:
- Worked as *Test Engineer* at Primus Global Technologies.
- Create functional scenarios for the requirements under test each sprint.
- Providing estimates for testing effort to senior management for each release and sprint.
- Developing test scripts for all functional, GUI and data verification for each functionality.
- Developed the Automation Test Scripts in Selenium Web Driver using Java, based on the design pattern Page Object Model and used Data Driven Framework for reusability.
- Tested various major functionalities like Policy Submissions, Changes, Cancels, Reinstate, Rewrites and Renewals.
- Modification and configuration of parameters, Short Duration Outage (SDO) analysis.
- Software up gradation of nodes and resolving IP clock issues.
- Handling ce grow, de-grow activity and performing site handover activity.
- Work closely with the IP engineering and network operations center to define, according to IP plan provided and implement end-to-end networking solutions.
- Integration of lte enodeb (DUS and baseband nodes).
- Establishes and executes preventative maintenance routines and analyses results for proactive activities to prevent incidents.

Cognizant Tech Solutions. (Dec 2018 – April 2020)

Nature of work in Cognizant:
- Worked as *Sr Associate* at Cognizant Tech Solutions.
- Create functional scenarios for the requirements under test each sprint.
- Providing estimates for testing effort to senior management for each release and sprint.
- Developing test scripts for all functional, GUI and data verification for each functionality.
- Worked as Manual, Automation and Functional Tester.
- Responsible for updating and maintenance of existing selenium scripts. Used Q-Test for test execution and Eclipse IDE for running scripts.
- Modification and configuration of parameters, Short Duration Outage (SDO) analysis.
- Software up gradation of nodes and resolving IP clock issues.
- Handling ce grow, de-grow activity and performing site handover activity.

Cyient Pvt Ltd. (Feb 2016 – Dec 2018)

Nature of work in Cyient:
- Worked as *GIS Engineer in Cyient*.
- Create functional scenarios for the requirements under test each sprint.
- Providing estimates for testing effort to senior management for each release and sprint.
- Developing test scripts for all functional, GUI and data verification for each functionality.

TECHNICAL SKILLS

- **UI Automation testing** : Selenium(Web driver), Cucumber BDD, Gherkin, TestNG. Appium
- **Language & Concepts** : Java, MySQL, DBMS, OOPS, Node.JS, POM,BDD.
- **IDE's** : Eclipse, IntelliJ, VS Code.
- **Tools** : Jira. GitHub, Q-Test, Kibana, Session, Open-shift, Kubernetes, Splunk
- **Guide Wire** : Policy Center.
- **API/Web Services testing**: Postman, REST Assured

EDUCATION DETAILS

- **BE** in Electronics & Communication Engineering, from Malla Reddy Collage of Engineering, Medchal under JNTUH University Hyderabad

ACADEMIC PROJECTS

- **Project Title : Wireless Smartboard using Embedded systems.**

Project Objective & Description :

The traditional chalk board system produces a lot of chalk dust which pollutes the air and also affects on the health, In this project when a person write on touch screen on the hand held unit using a stylus, the signals are converted into electrical signals and are transmitted wirelessly to the Raspberry pi board and it process and display the written content using on projector.

- **Project Title : ATM Robber Catching System.**

Project Objective & Description :

In this project we implemented a system for catch the Robbers automatically, when robber will rob the ATM, then Automatically close the door and immediately Alert message send to the nearest Police station and also send to the Bank manager, after manager will come and open the door by entering the password, So we can catch easily the robbers.

ACHIVEMENTS AND EXTRA-CURRICULAR ACTIVITIES

- Participated in state level project exhibition in "Do It Yourself" in Hyderabad.
- Attended workshop on "Industrial Automation", in Ni-MSME, Hyderabad.
- Industrial visit – AIR(All India Radio) Station, Alwal.

STRENGTHS

- Fast learner.
- Hard working.
- Honest.
- Positive approach to work.
- Confident to lead and work with a team.

PERSONAL PROFILE

Father's Name	:	Dinanath Sharma.
Marital Status	:	Married.
