Gaurav Nandkishor Bhavsar
Software test Engineer
Phone: 8983158439
bhavsar.gaurav12@gmail.com

Expert in Manual testing and Automation Testing(Selenium WebDriver) that includes Smoke, GUI, Functional Testing, Re Testing, Regression Testing, UI Testing, Globalization Testing and Database Testing using SQL, API Webservices testing and Browser Compatibility Testing. Very good experience in SQL&UNIX technology. Worked on test management tool-ALM 12,JIRA. Having expertise in - Investment Banking Domain& knowledge Telecom Billing (BSS) domain

Manual Testing/ Automation Testing :

- 4.8years of experience as a software tester with full **System development life cycle** experience, including test case designing, developing and implementing **Agile test plans**, **Test cases**.
- Experience in domains like **Investment Banking** and **CRM in Telecom domain.**
- Strong knowledge on **manual testing** with **functional, database testing** including **File Validation**.
- Thoroughly involved in different types of testing's like **Smoke, GUI, Functional Testing, Re Testing, Regression Testing, UI Testing, Globalization Testing and Database Testing using SQL, API Webservices testing and Browser Compatibility Testing**.
- Participate in **Scrum meeting** to discuss about project progress report every day.
- Prepared **weekly status Report**.
- Handled defect log using defect management tool such as **HP ALM** 12.5, **JIRA** and prepared daily test status reports to communicate the test status with the team.
- Able to design the **Traceability Matrix** to map Business Requirements with test Case.
- Extensive experience in developing SQL scripts to validate the databases tables and reports data for database testing using **DML** and **DDL** commands.
- Involved in Web service testing using **SOAP UI.**
- Good understanding of Postman & SOAPUI in API Testing.
- Performed Automation testing using Selenium on Web based (Browser) application.
- Developed User Defined functions to support the automated scripts. Used the Data driven Testing-using Selenium
- Experience in Automation Testing Tools like **Selenium Web Driver.**
- Knowledge in **Core java** concepts.
- Knowledge in Agile with Scrum
- Experience in designed Functional decomposition **TestNG** framework.
- Expertise in locating elements using **XPATH** and **CSS**.
- Experience in creating and executing scripts in parallel and sequential using **Webdriver-TestNG** with **Java**.
- Knowledge of **JAVA, OOPS** Concept, **Collection framework, Array** and **String class.**
- Able to run the test cases for all browser namely **IE, Chrome and Firefox.**
- Experience in Build Management Tool which is **Maven for the Data Driven Framework.**
- Good experience in **UNIX** commands.
- Performed **SOA** Testing using **SOAP UI** tool.
- Involved in **Production Issue.**
- Excellent understanding of **Defect status life cycle**
- Actively Participated in **scrum** meeting.
- Clear understanding of **Software Development life cycle (SDLC)** and **Software testing life cycle (STLC).**
- Experience in **Agile** methodology.
- **Effective defect tracking** and **reporting** to **improve communications** and **reduce delay**.

SKILLS SUMMARY

- **Frameworks:** Selenium, Selenium Web driver , Selenium Framework, Selenium GRID, Java, Maven, TestNG , Junit, JIRA, Linux.
- **Languages:** Core Java, SQL,UNIX, SOAP UI;
- **Databases:** Oracle DB, SQL Server.
- **Tools:** Instruments (IOS mobile simulator), SOAP UI, Firebug, Eclipse IDE, HP ALM 12,Selenium.
- **Testing methodologies:** Automation testing, Database Testing, API testing, Manual Testing, Functional Testing, Web Service Testing, Accepting testing, Accessibility testing, test plan creation
- **Software methodologies :** AGILE Methodologies, V-Model, and Scrum processes.

EDUCATION & CREDENTIALS

BEIT from RTMNU Nagpur University, Maharashtra.

Diploma in Information Technology, Mumbai, Maharashtra

SSC from Pune Board, Maharashtra.

PROFESSIONAL EXPERIENCE

Currently Working As a Software Test Engineer in RAD Systems and With Atos-Syntel (6th July 2016 –June 2021)

PROJECT UNDERGOING

Project No: 1

Project Name: Capital Restructuring& Privatization (Investment Banking Domain)
Client   :   Investec, UK
Testing   :   Functional Testing, non functional testing and Automation Testing

Description:

It provides clients with expert perspectives to help them make critical strategic and alternative investment decisions with confidence. It takes a multi-dimensional approach to problem-solving and formulates effective solutions to address your needs and build highly effective solutions that help you create value.PWP is a leading global institutional asset manager with an unwavering focus on investors' needs.PWP created the Agility platform to provide user organization an Outsourced Investment Team with comprehensive capabilities that can offer customized programs to meet your individual investment requirements.

Responsibilities:

- ☞ Analyzing & validating the completeness of business requirements.
- ☞ Generating the Test scenarios and Test cases.
- ☞ Generating **Regression** Testscripts by extracting the requirements that need to be tested from available documentation and/or liaising with the relevant people.
- ☞ Developed **Automation Test Scripts**.
- ☞ Creating POM (page object model) and Test classes for the framework.
- ☞ **Retesting** defect fixes on each release build.
- ☞ Performed Smoke, Functional, System Integration, Retesting, Regression testing .
- ☞ Experience in Designing and implementation **of TestNG framework** with **WebDriver.**
- ☞ Performed parameterization to implement **Data Driven framework with Selenium and Java**.
- ☞ For the DataBase testing by done with the SQL and MySQL.
- ☞ Conduct Internal Test Case **Peer Reviews.**
- ☞ Participated in weekly status meetings with the team, developers to discuss open issues and communicating with onsite team.
- ☞ Propose improvements to current practices ensuring that approved enhancement are fully implemented and the repeat errors are eliminated.

Project Name	**:**	**Smart Billing and CRM System**
Client	**:**	**Deutsche Telekom, Germany**
Testing	**:**	**Functional testing, Database testing, Web Service Testing**

Description:

Marketing department in a telecom operator company works hard to define rental & usage charges for different products and services. These charges are defined keeping other competitors and regulatory in mind. Broadly speaking, there are two type of tariffs, also called rate or price plans, depending terminology used in different billing system.There could be different types of charges to be applied for a product and associated services. For a given product, an operator can define one or more of the following charges, but they are not limited to only these charges, there could be some other type of charges depending on country, location and business situation:Product Initiation Charges: These are one-time charges, which can be taken from the customer as a part of installation, activation, service or initiating a connection.Product Periodic Charges: These are the charges, which can be applied on monthly or bi-monthly or yearly basis as a rental of the product and service provided.Product Termination Charges: These are the charges, which can be applied on termination of the product and service.Product Suspension Charges: These are the charges, which can be applied if a product is suspended because of some reason; for example, non-payment.Product Suspension Periodic Charges: There could be a requirement to charge a customer periodically even if a customer is suspended because of some reason.Product Re-activation Charges: Assuming a product was suspended due to some reason and now it needs its activation, an operator can apply re-activation charges for this service.Product Usage Charges: This is most important type of charge, which would be applied based on the usage of the service. For example, call per minute or per second, data download per MB, etc.

Roles and Responsibilities:
- Responsible for gathering **test execution** data on daily basis and sending mail to Team.
- Responsible for **getting clarification** from the Development Team **regarding defects**.
- Responsible for sending **progress reports** on the **weekly basis** and **resolving technical issues**.
- Responsible for providing **Regression Test case Estimation** for **various customer requests**
- Understand the requirements and clarify the doubts with BA.
- Responsible for understanding the Database schema and ER diagram.
- Verifying database schema as per given design document.
- Checking data integrity and data correctness.
- Checking the logs using UNIX.
- Writing down complex SQL queries.
- Execute SQL queries to check table updates and data retrieval.
- Logging the bugs in Defect Tracking Tool.
- To test back end functionality of an application.
