Performance driven and Result oriented professional with an experience of managing projects and releases from concept to completion. Skilled in Salesforce with more than three years of experience in Administration, Einstein Analytics, Salesforce Development, GIT, CI/CD and Deployment cycles under Agile and DevSecOps methodologies.

---

## EDUCATION

**MAY 2017**

CGPA: 8.75

B-TECH, INSTRUMENTATION AND CONTROL ENGINEERING, NATIONAL INSTITUTE OF TECHNOLOGY, TIRUCHIRAPPALLI

## EXPERIENCE

**OCTOBER 2020 – PRESENT**

**SENIOR ANALYST, SCHNEIDER ELECTRIC**

- Working experience in DevSecOps model with SFDX and GitHub integration.
- Platforming Project – single page tool built in LWC to categorize accounts based on a dynamic questionnaire depending on Classification level 1 and level 2.
- Opportunity Profitability Margin project– project involved implementing blockers while changing the opportunity stage depending on the opportunity type using classes, validation rules, Process builders.
- Continuous Enhancements – Apart from the projects mentioned above, I've been involved in continuous enhancements on the Sales application for close to 10 releases

**JULY 2017 – OCTOBER 2020**

**TECHNICAL ANALYST, SCHNEIDER ELECTRIC**

As Einstein Developer –

- Collaborated with Solution owners, Architects and Tech Leads of the bFO Sales project to elaborate on the requirements, solution designing and estimations.
- Worked on building dashboards for the Sales Application
- Experience in Einstein Analytics administration.
- Worked extensively on designing and developing the UI of various Einstein projects
- Experience in Einstein concepts of datasets, dataflows, Apps, lenses, bindings and SAQL.
- Working Experience in SOQL

As Salesforce Developer -

- Created various flexi Pages. Activated and Assigned them to the respective Application, Profile and Record types as per the business requirement. Created and designed Custom Fields, Validation Rules.
- Worked on Administrative tasks like User Management, Workflow, Tasks & Events.
- Worked on Apex classes, Triggers and SOQL, SOSL queries

As DevOps Engineer -

- Responsible for implementing and managing release cycle for code through development, test (SIT, UAT & NRT), Preprod, Production, Training & Hotfix environments.

- Worked collaboratively with all participants in software development projects and is supportive of Architects, Developers and Testers as they set up their build dev/test environments.
- Ownership of various release activities like merging, packaging and deployment, deployment playbooks, hotfixes.
- Strong expertise in deploying all Metadata types - including Profiles, Permission Sets, Custom labels, Apex, Visualforce pages.
- In-depth knowledge of Salesforce.com (Environment management, Build & Release management)
- Well versed with concepts of GIT, Merges, branches creation, resolving conflicts, revert and reset.
- Strong expertise in CI/CD using Bitbucket and AutoRabit.
- Continually worked towards making improvements in the release process
- Worked on the functional elements of salesforce

## CERTIFICATIONS

- Salesforce Certified Administrator

## SKILLS

- Good communication skills, interpersonal skills, self-motivated, quick learner, team player
- Cross functional collaborations
- Web Application tools like HTML, CSS and Database languages like SOQL & SOSL
- CI tools: GitHub, AutoRabit, Bitbucket, Jira, Tortoise Git, ANT
- Salesforce tools: Workbench, Data Loader
- Environmental tools: VSCode, Notepad++

## ACHIEVEMENTS

- Recognized many times during my tenure at Schneider Electric with awards like Surge- “Act like Owners”, Spotlight- “Customer First”, Electrify-“Effective”, “Straightforward” for excellence shown in various projects.
