## Damini Milind Khadakkar

---

### Professional Summary:

- I have about 4 years of hands-on experience working as an Associate Consultant in TIBCO Spotfire and Tableau.
- For TIBCO I have worked on multiple projects for large clients such as Nielsen, Goya Foods, Mercedes and MEA-Thailand. All these projects were extremely time sensitive and I played a key role in designing and building the dashboards for various use cases and purposes.
- I actively managed the documentation and support related tasks and was actively involved in the project handovers as well.
- I have delivered Spotfire basic and advanced analyst training to a team of 50 employees over the Bangkok Malaysia region.
- As per the internal initiatives I had a chance to work on POCs related to the integration of Spotfire to various cloud data sources, configuring the LDAP, encrypting Spotfire client server connection, Spotfire clustered setup and upgradation.

### Education:

B.E. (Information Technology Engineering) with **First with Distinction class (74.93%)** from AISSMS IOIT, Pune under Savitribai Phule Pune University in **June, 2017**

HSC from Maharashtra State Board- **2013** with **71.63%**

SSC from Maharashtra State Board- **2011** with **94.36%**

### Technical skills:

- Building attractive Spotfire dashboards and reports (versions 7.x, 10 and 11)
- Working on Tableau Desktop and Tableau Public
- Building KPI dashboards in both Spotfire and Tableau
- Hands on experience with the new Spotfire MODS in Spotfire 11
- Spotfire environment setup, migration and deployments across multiple environments
- Working with HTML, CSS, Javascript, SQL and IronPython
- Connecting BI Tools to various data sources and cloud platforms
- Working with TIBCO Streaming analytics
- Monitoring User Action Logs reports
- Creating personalised and parameterized Information Links and working with on demand data
- Creating Accordions in spotfire text areas
- Working on Scheduled Updates and Automation jobs

### Work Experience:

TIBCO Software India Pvt. Ltd.

**August, 2017 – Present**

**Associate Consultant – Data Analytics**

### Major Implementation projects handled :

#### **1. Nielsen, Global**

**Domain: Market Analysis**

Handled over 8 modules of the Nielsen Buy department over a span of 1.7 year with over 30 dashboards

- Understanding the legacy system and developing dashboards in alignment to the system
- Handling huge data load by creating on demand dashboards and drill downs in spotfire
- Server level load monitoring for the global users
- Project Documentation and Handover of project

Mobile No:+91-7719014170

## **2. Goya Foods, USA**

### **Domain: Retail Store**

Handled over 15 reports for this Hispanic retail store in a course of 6 months from development till the handover

- Setting up clustered environment
- Configuring LDAP and Kerberos authentication
- Developing Weekly, Monthly and Dynamic reports from MS Cube and IBM DB2 to align with the legacy system
- Working on IronPython and Css scripts for dynamic functionalities
- Developing reports compatible for laptop, tablet and mobile interfaces

## **3. Metropolitan Electricity Authority (MEA), Thailand**

### **Domain: Electricity Distribution**

Worked with a team of 4 members and handled over 3 major dashboards for the Thailand State Authority. This being a government initiative, we had to work with the confidential data on a couple of systems provided by MEA via remote desktop with a very strict timeline of 2 weeks development.

- Data extraction, loading and cleansing
- Simple yet elegant dashboards for the stakeholders
- Extensive use of drill downs and map charts for locating the electric substations
- Detailed project documentation and handover

## **4. Mercedes, UK**

Worked as a final phase quality assurance consultant to test the dashboards and the APIs used to fetch the data from the database which basically showed the Mercedes F1 car performances with respect to various parameters

- Worked on Python Automation scripts
- Hands on experience on GRPC, BloomRPC
- Spotfire dashboard testing

### **Achievements:**

- TIBCO Spotfire 7 Certified Professional
- Tableau Desktop Specialist and Data Visualization courses on Udemy
- Star Performer Appreciation award given for outstanding performance in a critical project
- Part of the Best Project Team for Nielsen and Goya Foods
- First winner of the TIBCO GameJam Competition held by TIBCO Global
- First winner of the Advanced Analytics Competition held by TIBCO PGD
- First winner of the TIBCO Y2P Hackathon held by TIBCO India
- Participated in Spotfire Mods Hackathon (Modathon) and Vista Global Hackathon

### **Languages Known:**

English, Hindi, Marathi
