- Understanding the requirements in the Business Analysis document and writing the High-level Design document for enhancements/features and Working on the Coding phase.
- Development of new Sub files, maintenance screens and Windows and supporting them.
- Provided apt estimates for billable data fixes and ROM for medium to large enhancements.
- Conducting post code review meetings with the Stake Holders & Business Analysts and Testing Team.
- Communicating with the Architecture Review Board to ensure the design is correct.
- Supporting the testers in system testing & Function Testing, User Acceptance Testing, and production testing.

AS400 Expertise:

DDS-Physical Files, Logical Files, Joint Logical Files, Source Physical Files, Display Files(DFU), Batch Debugging (STRDBG, STRISDB), CL commands, RPG Programming (SEU) and Opcodes, Built in Functions, Free Format, SP's, Sub files, Printer Files (RLU), Service Programs, Modules, Binding Directory's, Procedures, Data Structures, Copy book, Macro's, API's, XML Integrations, Interfaces, Work with Jobs, Members (PDM), Journaling, FTP, Save Files, Exception/Error Handling.

SYNON 2E Expertise: Execute Internal Functions, Execute External Functions, Execute User Programs, Execute User Sources, Action Diagrams, Function Options, Edit Record, Edit Files, Select records, Prompt and Validate Record, Print Files, Retrieve Objects, File- File Relations, File – Field relations, Access Paths, Generation of Programs, Print Objects, Sub files Programming, File Relations, Structure Files, Data types, Different types of Files Creation, Contexts, Parameters, Different types of Fields Creation, Fields Conditions.

Production Support Expertise:

- Level 3 Production Support – Resolving Sev-1, 2, 3 Level tickets meeting stipulated SLA's.
- Providing On- call Support on periodical basis for various clients
- Resolved 500 Odd Production Support tickets, Deployed 250 Odd Code Fixes.
- JIRA (PSUP) tools Exposure and Analytical tools for Support tickets tracking and Agile.
- ITIL Certification is in Progress.

MuleSoft Expertise: Mule 3.7,3.8,3.9, 4.0,4.1 ,Anypoint Studio, Mule Integration Platform, Data Integration, Data Analysis, Preparing End to End Mapping Documents Database management using Mule, message routing, data transformation, creating various flows in mule3,mule4 to integrate API's, Databases and SaaS applications, utilizing SOA technologies like Enterprise Service Bus(ESB) with the help of IBM I service component (v6.x, v7.x), Migration and deployment to Cloud Hub, Mule Expression Language (MEL) to access payload data, properties and mapping variables of Mule Message Flow, Enterprise and Community editions, MULE API manager and RAML, using various connectors like Anaplan, AS400 Connector, MSSQL, Salesforce Connectors, Stored procedures, Program Call Processor ,Salesforce, File, Database, JMS, SMTP, Transformers, and Data weave for integrating various applications which are on-premises and hosted on cloud using synchronous and asynchronous Mule flows.

- MuleSoft Certified Developer- Mule4, Mulesoft Certified Integration Professional

Anaplan Expertise: Data Modeling Data Blending, Supply Chain Analysis, Full End to End Integrations with Anaplan API, Creating, Maintaining, Integration of Workspaces, Models, Actions (Import, Export, Delete, Process), mapping w.r.t the requirements.

- Anaplan Certification is in progress.

WORK EXPERIENCE – 6 Years

V-Soft (Technical Lead)

Tenure	: 2 years (July 2018 to May 2020)
Product	: AS400-SAP-Mulesoft- Anaplan Integration (D2C, MDM, Anaplan)
Clients	: Accell, Infoview, RB, Yum Brands!

AS400-Mulesoft Integration Projects: MDM- ACE Integration, D2C Order Management, JDE-Anaplan Integration, JDE - Azure Integration, JDE – Kinesis Integration, JDE- Kafka Integration, JDE – Salesforce Integration, Products API, Dealers API.

The purpose of these projects is achieving the Data Integration by implementing the integration solution of DB2 to various other systems with Mule ESB. Existing process is Manual Process where Support team executes the queries on DB2 and then results are stored in Share point folder manually. The goal of these projects is to replace the manual process with automated process using Mule ESB, with integration standards followed for integration. These global solutions must be able to publish the product information changes to various front and back end systems. Current file-based point to point integration solution works fine for the small number of connections with existing ERP. These resulting API design support easy changes to data models, routing and transformation / mapping rules. The assets built for these projects promote self-service and maximize reuse.

Client Interactions: RB, Accell, Infoview

Achievements: Received 2 “Best Performance” Awards for Q4 2018, Q4 2019 for good performance at work with clients.

TEKsystems (Senior Software Engineer) – Deployed at Volvo

Tenure : 1.4 Years – March 2017 to July 2018
Product : Truck Invoicing Application (TIA), Order Manager (OM)
Deployed at : Volvo

TIA (Truck Invoicing Application) is the appointed invoicing solution for invoicing of new trucks from Market Company to dealers or to customer. This is an AS400 based Application which is designed to handle the Invoicing Process at Volvo for the Daily Truck Orders.

On-Site Experience: Deputed to Client place for couple of Months to directly work with Clients in Poland, Sweden to understand the new business requirements and later delivered the requirements successfully to the clients in very short time.

Client Interactions: Volvo Dealers/Customers

Achievements: Received 5 “Pat on the Back Awards” from TEKsystems for good performance at Client Location Volvo.

NetCracker (Software Development Engineer)

Tenure : 2.6 Years -(July 2014 –Dec 2016)
Product : ICOMS (Integrated Communications & Operations Management

ICOMS is a fully integrated cable, High Speed Data & Telephony customer management System offered by NetCracker Technology Solutions. This Product is created specifically to support the convergence of the Cable TV, Telecom and Communications Industry. ICOMS is most open, computing based system available for most of the Telephony Enterprises across US.

Client Interactions: COX Communications, Bright House Networks, Time Warner Cable, Sudden Link Communications, Sky Communications, Virgin Media, RCN, Pencor, WOW.

INTERNSHIP DETAILS:

➤ RAJIV GANDHI YOUTH LEADERSHIP INTERNSHIP PROGRAM 2013.

Duration: May 15th to June 14th, 2013

Description: Successful in the typical selection process of Central Government in Leadership internship program 2013 at RGNID and represented Andhra Pradesh as one among the 54 interns from 17 different States of India. Developed Leadership skills, Soft skills, Life skills and Certified as Youngest Intern in RGYLIP 2013.

➤ Proctor & Gamble, Ambipur

Duration: 6 Months (October 2015 to April 2016)

Description: Ambipur Hawa Badal Do is a virtual internship program for Individuals designed by Procter & Gamble (P&G), one of the top marketing companies in the world and owner of the Ambipur brand. It is a perfect first platform for individuals to get exposed to marketing. Unlike theory led courses, this is a learn-by-doing virtual Internship I learned 7 key marketing lessons by doing fun tasks called missions.

POSITIONAL RESPONSIBILITIES HANDLED AS STUDENT

CONVENER/OVERALL STUDENT COORDINATOR

- Played a decisive role by leading the Vasavi College as a **Convener & Overall Student Coordinator** for ACUMEN 2K14, E-week'14, KRITI'14.
- Led Acumen'13 as a Coordinator and Sub-Core Committee member.
- Recognized by IISC Bangalore as a part of Events of Pravega'14 as its **Student Coordinator** for coordinating its events in VCE and Elected as Campus Ambassador for UV Softs Technologies for Coordinating ROBO-GALAXY events of Pravega'14.
- Coordinated Alumni Activities as Alumni Coordinator and motivated my peers, juniors, sophomores towards college alumni through various cultural programs.

CAMPUS /STUDENT AMBASSADOR

- Worked as Campus Ambassador for Wooplr, Souled Store, Twenty19, Khelkit, Btechjosh, Aavishkaar'13, Engineers AddA, Mentor Solutions, Touch Talent and Promethean 2K13, Pravega'14, Fluxus'14, ISIC India, Uniq Technologies, Sourcenxt, and Global Experts4U, Lucknow conclave, Uttistha, Mozilla & Thinkware Solutions during Jan 2013 to June 2014.
- Extended OC member for International Events Samvaad & Lucknow Conclave
- Former Student Ambassador for Facebook India.

ACHIEVEMENTS
