## WORK EXPERIENCE

### ATOS-SYNTTEL

Chennai

Jul 2018 - Present

### PYTHON DEVELOPER

Python developer with 3 years of experience executing data driven solutions to increase efficiency, accuracy and utility of internal data processing.

## PROJECTS

Chennai

Aug 2018 - Present

### Project Name - ITAA

- Developed new applications and enhanced existing using Python with Flask, and Django frameworks.
- Used pandas, Numpy and Matplotlib extensively for Data Analytics using python.
- Experienced on Machine learning classification algorithm such as Naïve Bayes, tfidf vectorization using Sklearn.
- Performing unit and integration testing for the application eliminating system's failure rate by 75%.
- Experienced in Agile Methodologies,SCRUM process and worked on AGM for managing tasks and improving individual performance.
- Extracted information from MySQL and manipulated using ORM.
- Worked on developing a selenium based testing framework using Java.
- Worked independently on DataScience projects from pre-processing the dataset. Building the model and deploying as an API
