EXPERIENCE | 3 Years

Infoview Technologies Pvt Ltd, Chennai -
Junior Engineer

September 2017 - PRESENT

PROJECTS

Accounts Expense Budget

A Budget application, to estimate expenditure for a set period of time on the listed products of the organisation based on the budget allocated on each product.
It is a highly scalable application which uses REST API services, Spring MVC Framework, NoSQL DB(Cassandra), Google Closure.

ACA - Affordable Care Act

An application where employees can apply forms for getting eligible benefits from the Affordable Care Act. The submitted forms can be viewed by HR and processed further so that the employees can be benefitted accordingly.
It uses Microservice pattern REST API services, Spring MVC Framework, Jaspersoft application to build the form editing system, NoSQL DB(Cassandra) and Google Closure

Performance Review Management

A system which displays the employee list based on their performance, ranking in 4 levels. HR can access the information of the employee based on their levels and upgrade their levels based on their performance.
The application uses REST API services, Spring MVC Framework, Elasticsearch for searching the employee record, NoSQL DB(Cassandra), Google Closure
